The Erie Senatorial District.

The primary election for Senator took place in Erie on Saturday—Senator Lowry having previously carried Crawford. The Erie *Dispatch*, of yesterday, says enough is not known to determine the result in that county. It says: "Enough is known, however, to say that the contest is close, the votes from the districts heard from favoring Mr. Lowry. The city decided against Mr. Lowry in three wards, and favored him in one."

George D. Davis, Jr., Burgess of Pithole, and a prominent banker in the oil region, has suddenly disappeared. Financial embarrassments are said, by some, to be the cause of his leaving. Others assert it to be a case of downright fraud. The *Record* asks for a suspension of judgment until further developments.

Bayard Taylor, in a recent letter to the New York *Tribune*, says: "Since I have come to Europe I have been constantly called upon, in France, Switzerland and Germany, to explain our present difficulty, and that while I have found a great many persons unfriendly to the permanence of the Union, no one has the courage to confess himself an admirer of Andrew Johnson."

The victim of the French Frigard affair, Sydonie de Folleville, who, well known in all public places in which the Parisian Anonymas exhibit their charms, for the magnificence of her hair, was in reality as bald as a coot, and the display which had brought so much grist to her mill for some years past was entirely, from root to point, the work of an *artiste en cheveux* to whom the unhappy girl entrusted the decoration of her head. So admirably was the wig adjusted that it was only when the doctors were called in to examine her decayed body that the imposture was discovered.

M. VICTOR MEUNIER has a curious article in the last number of Cosmos, upon the feasibility of making servants out of monkeys. The wild baboon of the woods, when freshly caught, would of course be untractable, and both by his disposition and his habits would be unqualified for becoming serviceable in household duties; but the monkeys of succeeding generations, brought up by hand in the soothing influences of civilization, would, he argues, be quite eligible for the positions of housemaids and footmen. The long prehensile tails of certain kinds could be brought into use in various ways and their nimbleness is undisputed. We do not card to argue as to the correctness of the theory of M. Meunier, but we think housekeepers might be found who would favor it as an experiment worth trying. We might suggest, however, that if the same pains were taken with human beings, the result would be more certain, more sudden, and more satisfactory.

NOWHERE out of India, we fancy, could a parallel be found for the voluntary torture submitted to by the Mandan Indians in their religious ceremony called O-kee-pa, as described, with illustrations, by Mr. George Catlin in his latest book. It was a religious performance in which the young men who wished to be graduated as warriors were hung up in the lodge of the medicine-men by the muscles of the neck or breast, great weights of shields and Buffalo skulls dangling from the muscles of their arms and legs, and then rotated till they fainted; the final trial being to run a miserable race till the dragging weights were detached from their lacerated wounds. Mr. Catlin witnessed this shocking ordeal in 1832 on the Upper Missouri. Mr. Schoolcraft doubted, but other travelers have corroborated, his account. Small-pox and disaster have since exterminated the tribe, and Mr. Catlin's narrative will probably cause little regret for their disappearance, although they are represented as friendly and hospitable, and could boast that they had never killed a white man. The history of superstition, however, would be incomplete without the revolting chapter we have already sketched.

THE Episcopal Conference to be held on the invitation of the Archbishop of Canterbury is attracting much attention in this country and England. The London *Times* of the 24th ult. says: "Several colonial bishops are at present in London, and the Cape mail brought the bishops of Grahamstown and the Orange Free State. The bishop of New Zealand is on his way to England. The bishop of Honolulu will be there in about a fortnight. It is expected that about eighty bishops will be present at the Pan-Anglican Synod which is to be held at Lambeth in September. At the request of the Archbishop of Canterbury, the inauguration sermon will be preached by a bishop of the United States of America, and Dr. Whitehouse, Bishop of Illinois, has been selected for the purpose." This is a graceful compliment to the Episcopal Church in this country. The London papers are united in expressing the opinion that the selection of Bishop Whitehouse is most appropriate, as he was the only American Bishop present at Lambeth when the Pan-Anglican Conference was suggested, and greatly favored it. Bishop Whitehouse left in the steamer Union on the 5th inst. He is to be the guest of the Archbishop of Canterbury.

America as a Model in England.

The London correspondent of the Boston *Advertiser*, writing concerning the Ecclesiastical Title Bill, says: "America is constantly referred to in the discussions about the prohibition of Roman Catholic titles. Mr. Hope Scott says triumphantly: 'In the United States of America you may make as many bishoprics as you like, and I believe that the more you make the better they are pleased,' an assertion which I decline to take *au pied de la lettre*. Some member of Parliament asked him: 'Are you aware that the United States are particularly jealous of all interference by European states?' 'Just so,' was the reply. 'But the Monroe doctrine does not, I believe, apply to the Pope.' We have been dosed with America now that we have adopted its democratic principles of legislation. I foresee that we shall have a party who, in controversies that are to come, will be constantly pointing with outstretched finger to the American republic. Up to last year the United States were used as a warning: clearly they are now going to be quoted as a model."

The "Curse of Agitation."

The Charleston *Courier* remarks in the course of an article on the change of commanders:

We have said that we did not like much of General Sickles's military legislation, still we believe he is a man of first class intellectual ability, and meant to do what was right. We must be excused therefore, if we do not consider his removal as a good *per se*. We know nothing whatever of General Canby; but suppose, upon his accession, he should revoke General Orders Nos. 10 and 34, and perhaps some paragraphs of 65; is it certain, therefore, that the people of the two Carolinas will thereby be the gainers? Much that has already been done may have to be done over again; and agitation, at present our greatest curse, bids fair to be continued indefinitely.

Let us then learn wisdom from the past, and stand aloof from the present imbroglio. We firmly believe that *we now have the best terms* that will ever be offered to us. Let nothing, therefore, lead us from the main work in hand. Let no side-issue divert our attention from the great task, now before us, viz.: Our political regeneration. If we reject these terms, we have no reason whatever to look for anything but worse.

OHIO ITEMS.

The farmers in the neighborhood of Tiffin are cutting up their corn for fodder, as the grain cannot be matured. The central portion of the State is suffering more severely from the drouth than any other.

On Wednesday night last, a brakeman on the freight train going West, when a short distance below Coshocton, fell between two cars and was run over, crushing his right leg and arm so as to render amputation necessary.

The Cannel Coal mines, in Jefferson township, Coshocton county, have passed into the hands of a gentleman from Kentucky, and preparations are now making for working them extensively.

Lead mines are being opened near East Plainfield, Coshocton county.

Another hero is added to the list of Ohio's great sons, who won honor in the war. The Scioto *Gazette* says that Gen. John A. Logan was born in that place. It says he is of Irish parentage, not at all related to Logan the celebrated chief of the Mingoes. It says that this report probably arose from the fact that one was born in Chillicothe, while the other is buried on Mount Logan, overlooking Chillicothe.

Hon. W. D. Kelley, of Philadelphia, is announced to address the citizens of Columbus this evening.

General Harriman, the Governor of New Hampshire, will speak one week in Ohio, commencing about the 25th inst.

A boy named Henry Schwartz was fatally stabbed by Jacob Renner, in Columbus, on Wednesday last.

Grape growers in the vicinity of Sandusky, and on the islands, state that there will be more than an average crop. The rot has almost entirely disappeared.

Samuel Koogler, of Taylorsville, Montgomery county, a native of Pennsylvania, died on the 4th inst., at an advanced age. He had been a resident of Montgomery county sixty years.

The Amnesty Proclamation

Is looked upon by the Southern men here as falling far short of their expectations. It appears that of the four hundred special applications for pardon on file in the Attorney General's office, but one came within the classes pardoned by to-day's proclamation. Of the class of Congressmen who left their seats here to join the rebellion, but one, Thomas S. Bocock, is pardoned in the entire Virginia delegation. Most of them have been heretofore specially pardoned. On the other hand the classes of Brigadier Generals and Governors of Southern States who are excluded from amnesty by the President, had heretofore been pardoned nearly to the full extent. The Governors of Virginia, North and South Carolina, and Alabama and Georgia, have already been pardoned. Those who have been urging amnesty, therefore, do not feel as if their efforts with the President had fully succeeded.

Registration Lists Not to be Reopened.

The semi-authoritative statement of the *Intelligencer*, of Saturday, that it was unanimously decided in Cabinet on Friday that any one pardoned by the proclamation of to-day was restored to his civil rights and allowed to register as a voter, has caused a wide-spread inquiry to-day in official quarters for an Executive order requiring the registration in the South to be opened to the alleged newly enfranchised class. At Grant's headquarters no intimation of such an order had been received, and on inquiry at the White House, it was learned that no such order is in course of preparation. While the Cabinet were of the opinion that a pardon conveyed the right to vote, it was not held that it could be enforced against a positive proposition in the reconstruction law. An Executive order, it is stated in the proper quarter, will not be issued, therefore, for the opening of the registration lists to the class enfranchised by to-day's manifesto.

The Cabinet Report.

There can be sifted, each day, from the Washington rumors and facts, the usual Cabinet paragraph. To-day it seems to be agreed that Senator Reverdy Johnson prefers to remain in the Senate to serving the same time as Secretary of State in the Cabinet. No changes have been filed at the White House or Treasury Department against Commissioner Rollins, and it is not true, therefore, in view of these facts, that the President has decided to suspend that officer.

Land Sales.

Returns received by the Commissioner of the General Land Office, show two hundred and eighty farms, comprising in the aggregate, 20,570 acres, to have been added to the productive force of the States of Alabama and Florida during the month of August last, as follows: Alabama—Located at the Huntsville office, 113 farms, comprising 8,752 acres; Florida located at the Tallahassee office 166 farms, comprising 11,762 acres. The land was taken under the act approved June 24, 1866, providing for the disposal of the public lands for homestead actual settlement in certain States of the South, and confines the entries to eighty acres each.

Colorado Jewett

Is again in town plying his vocation, addressing huge communications on political subjects to the President. He solicited a special interview to-day and was refused.

Personal.

Generals Butler and Banks are in town. Gen. R. E. Lee passed through the city to-day, on his way North. Secretary Browning has entirely recovered from his recent illness, and is again attending to the duties of his office.

But very few visitors were at the Executive mansion to-day, nearly all of whom had an interview with the President. General Steedman visited the Executive mansion this afternoon, but did not see the President.

Debt Statement.

Secretary McCulloch has issued to-day a corrected statement, which shows that the debt, less cash in the Treasury, has decreased in the last month $18,523,000 96, instead of less than six millions as shown in the erroneous statement. The corrected statement also shows that the debt has been reduced since the 1st of September, 1865, $264,906,206 38. If this rate of reduction could be kept up, the entire debt would be paid off by July 1, 1887.

WASHINGTON, September 9.

CASH IN THE TREASURY.

The amount of gold in the Treasury to-day was $82,754,210, and coin certificates $14,879,700; total $97,633,910. Amount of currency, $46,903,000.

INJUNCTION REMOVED.

The Secretary of the Treasury has to-day removed the injunction on the caveat from one hundred and ninety-four of the Missouri State bonds, twelve of the North Carolina bonds, and two of the Tennessee bonds some years ago abstracted from the Department of the Interior.

PATENTS.

Two hundred and thirty-four patents will be issued for the week ending on the 17th. Five hundred and sixty applications and eighty-eight caveats were filed in the Patent Office the past week.

FOREIGN POSTAGE.

The Postoffice Department is preparing full instructions as to the rates of foreign postage after January 1st.

DEFALCATION.

It appears the defalcation in the office of the Comptroller of the Currency is between $2,000 and $3,000. The money was taken from the fund assessed on National banks for the payment of Inspectors.

EIGHT THOUSAND PARDONS.

It is ascertained from official data that since April 15th, 1865, about eight thousand pardons have been granted by the President. These includes some of the rebel foreign ministers, agents, members of Confederate Cabinet, Governors of Southern States, and upwards of ninety Brigadier Generals, with a due proportion of rebel Major Generals.

Major Stitt, Chief of the Pardon Bureau, at the Attorney General's office, has had on file for the past two years about four hundred applications for pardons from persons who were engaged in the rebellion and not pardoned by the proclamation of May 29th, 1865. By the proclamation of Saturday about one hundred of these persons are pardoned, but the other three hundred come within the exceptions, and of course their cases, like others similarly situated, must be separately considered.

KEY WEST.

Fever Prevalent at Fort Jefferson---The Cuba Cable.

KEY WEST, September 7.—The fever is raging at Fort Jefferson, Dry Tortugas. The steamer Alliance has been sent here for doctors and nurses, by order of Major Andrews, District Commander, who left the Tortugas yesterday. The government has been telegraphed to send physicians. Some say the disease is yellow fever, others that it is the break-bone fever. The post doctors are all down sick.

The shore end of the Gulf Cable from Key West to Puenta Rosa has finally been laid, and communication between the United States and Cuba perfected.

Boston and Roxbury Consolidated.

BOSTON, September 9.—There was a light vote to-day on the question of annexing Roxbury to Boston, but it was carried by nearly four to one.

Registration in Virginia.

RICHMOND, September 9.—The official figures of registration in Virginia show a total of whites of 115,157, colored 101,490.

Arrival at Quebec.

QUEBEC, September 9.—The steamer Austrian, from Liverpool the 29th ult., has arrived.

GREAT EXCITEMENT IN THE CITY.

The Race Between Hamill and Myers.

The Four Oared Race at Springfield.

Before the Race.

Although no less than fifteen excursion steamers had turned their prows back towards New York on Saturday, Newburg still presented a gay and animated scene, and the interest in the great contest was not allowed to flag for a single moment. The excursionists only left to return again Monday morning, determined to see the sport at any and all hazards. Brown continued his training at Newburg, moving up and down in front of the city, and over the track, and exciting a large degree of interest among the spectators. Hamill did not appear, having returned to his training quarters at Cornwall, where he remained until Monday morning.

The First Announcement.

Yesterday morning at eight o'clock, we were enabled to bulletin the result of the great contest which took place between six and seven o'clock. The postponement from time to time had run the excitement up to fever heat, and for an hour before the result was announced, Fifth street in front of the COMMERCIAL office, was densely crowded by those who had congregated for the purpose of getting the earliest intelligence from the scene of contest. The news at length came, and on its being bulletined the excitement was greatly intensified. It was announced that Brown had fouled Hamill, and that the referee had decided the race in favor of the "Little Engine." This was the information which had come to us from a reliable source, but in another quarter a conflicting announcement was made to the effect that the decision on the question of foul has not been made; and the inference was that the whole matter still remained in doubt. Some looked upon this as a dodge to get bets, or afford an opportunity to those who had gone their pile on Brown to save themselves by hedging. In another hour this counter announcement had been withdrawn, and another posted up, comporting with the first news as bulletined by the COMMERCIAL.

The Press Accounts.

The telegraphic accounts, as furnished to the evening papers, differ essentially from those which we give below. One account states that Hamill miscalculated his distance in turning the buoy, ran against the stake boat and capsized his shell, when Brown came upon him with a rush and almost cut his boat in two. Our special reporter says not a word about Hamill capsizing. It is not at all likely that a man of Brown's determination to win would have thrown the chance away, by fouling Hamill, if the latter had capsized. He would have given Jimmy a wide berth, and almost seen him drown rather than get within oars' length of him. The story about the upsetting of Jimmy's boat was, no doubt, a pure invention of some of Brown's aiders and abetters, to relieve him of the dishonorable imputation of having attempted to win by resorting to foul play. It is fully disproved by the decision of the referee, and by later accounts.

How the News was Received.

When the news of the victory of Hamill became generally confirmed by private dispatches, the knots of excited men on the streets began to discuss the merits of the respective contestants, and the base conduct of Brown was denounced in the most unmeasured terms. It was asserted that he had "acted the dog," and that he was utterly destitute of that principle of fair play which characterized the honorable sporting man. The fact that he ran foul of Hamill excited no surprise. It was expected that he would do so rather than be beaten. His conduct while here was freely canvassed, and it was with the most hearty expressions of satisfaction that the friends of Hamill learned that Brown's backers had fruitlessly appealed from the decision of the referee. This called very forcibly to mind a similar appeal on behalf of Hamill during the race in this city. The pill was doubtless a bitter one for Brown, but he had to swallow it. The almost universal opinion is, that Brown is so utterly destitute of fair play as to warrant his being tabooed hereafter. On the other hand, the friends of Hamill feel prouder of him than ever before, and will back him to any extent in his future matches. If he had been dropped down on Fifth street yesterday forenoon, in front of our office, he would have received such an ovation as he never before enjoyed.

Special Dispatch to the Commercial.

NEW YORK, September 9, 1867.

Between five and six thousand persons assembled this morning to witness the race between Brown and Hamill, which had been postponed from Friday last, owing to the unfavorable state of the weather. Both men were promptly on hand at six o'clock A. M. At six twenty both dashed away with an excellent send-off. Hamill took the lead, maintaining it for about a mile, when Brown put on a spirt and passed ahead a length or two. This, however, Hamill soon overcame, coming in at the stake-boat three lengths ahead. As they were turning the stake-boat, Brown ran into Hamill's boat with great violence, cutting the stern of the frail craft almost entirely off. Hamill ceased pulling, and drew out, but Brown kept on over the course, making the time of forty-one minutes and fifty-six seconds.

Hamill, on getting ashore, claimed a foul, and made a speech, in which he requested his friends to pay over no money; that he had won the race according to the agreements made between them. About an hour after the race, Mr. Stephen Roberts, Referee, also Stakeholder, awarded the race to Hamill. The ground upon which his decision is given, is that Brown ran into Hamill's boat, thereby preventing his free movements. The decision has created great excitement. The friends of Hamill are jubilant over the result. Brown's backers talk of appealing from the decision. All bets, however, must go with the stakes. There is great apprehension of a riot. E.

Another Account.

NEW YORK, September 9.—Monday morning opened gloomy, and at the time appointed for the race to take place, at six o'clock, the water was not exactly as smooth as could be desired. In order not to disappoint the thousands of spectators who had repaired to the scene by steamboat and rail, during Sunday night the principals mutually agreed to pull it off, as they were sick and tired of continued delays, and desired to have it over as soon as possible, that Brown might get to Springfield by Wednesday, and Hamill in Philadelphia on the 12th inst., when he pulls with Myers. Accordingly, preparations were made for the long deferred struggle.

Messrs. Munn, Crogan and Bob Elliott were chosen judges, the referee being Stephen Roberts. In a few moments the men appeared in their sculls, and as they pulled towards the starting point, were vociferously cheered by their respective partizans. As they drew into line their appearance was eagerly scanned and commented upon admiringly by the crowd. The betting was at first slightly in favor of Brown, through reports of Hamill having gained in flesh considerably since Friday, but when the start was made it was about even.

At precisely twenty minutes past six o'clock the word was given, and like a flash from a cannon, and amidst profound silence, the oars dipped the water simultaneously, and obedient to the call, the tiny crafts bounded away with the speed of the wind. Brown is noted for being a rapid starter, and this was no exception, for he quickly showed a few feet in advance, and propelling his boat by most vigorous strokes, which nearly lifted it out of the water, he increased his lead several lengths ere one-third the distance had been accomplished. The friends of the Portlander were now jubilant, and offering large odds, while the Pittsburghers wavered not in their confidence, but took the offers quietly. Their faith in Jimmy was speedily rewarded, too, for in response to their encouraging cries Hamill, who had been saving himself, turned on the steam, and increasing the rapidity of his strokes, fast closed the gap, and to the great dismay of Brown and his friends Hamill fairly flew past him opposite the brewery. Slacking up a little, immediately after he was passed in turn by Brown, but he had the lead only momentarily when Jimmy again shot his prow in front and when the turning point was reached he was a short distance ahead. In turning Jimmy was at fault in his calculations and his boat was capsized, when Brown came upon him with a rush and striking Hamill's boat nearly cut it through, rendering it useless for the future.

Hamill was quickly removed from his unpleasant predicament, and Brown, amidst cries for him to return, went over the course, his time being given as forty minutes. Hamill claimed foul because Brown had ran into and injured his boat, and the wildest excitement prevailed among the spectators.

After a long and stormy discussion between the judges, the referee decided that Hamill had won by Brown fouling him. The decision caused intense excitement, and threats of personal violence were used against the referee, but nothing serious has yet come of it.

The Feeling in New York.

NEW YORK, September 9.—The majority of the people have returned from Newburg. The public are satisfied with the decision of the referee, which was just. It is admitted that if the boats had not collided, Hamill must have won anyhow, and it is the general impression that Brown fouled him deliberately and by instructions of his backers, who knew that if Hamill led him at the buoy he was certain to beat him home in a fair race. Hamill was several lengths ahead at the stake boat, and the upset was caused by Brown running into him, and nearly carrying the stern of Jimmy's boat away. The time given by the different persons was from forty to forty-one fifty. Hamill was nearly drowned by Brown, who behaved in a very bad manner.

Results of the Contest.

This race has decided that Walter Brown is not and cannot become an honorable opponent. He cannot submit to a fair defeat. It has also decided that he lacks the physical endurance to compete successfully with Hamill, who will continue to wear his champion laurels until some more powerful and honorable competitor establishes his claims. Brown had everything his own way in this race—having the choice of time, place, amount, etc., and insisted against the earnest protestations of Hamill, in having but one stake-boat. Hamill was pertinacious in his efforts to have a buoy for each boat, so that he could turn free from all interference, and only yielded the point on the most positive assurances that he should have fair play. It is now apparent that Brown's purpose in insisting on but one stake-boat was, to hold the chance of fouling Hamill, in case he could not beat him fairly. The result indicates another fact—that the style of Hamill's rowing, known as the short, quick stroke, has decided merit in it. It must be borne in mind that Brown rowed the English cross stroke, crossing his hands at every stroke of the oar, and laying the weight of his body on it, thus giving a long, powerful pull. On the other hand, Hamill pulled the quick, rapid stroke, depending but little upon the movements of the body, and throwing the bulk of the labor upon the muscles of the arms. The long, sweeping stroke tells well so long as it can be maintained, but Brown is not possessed of that stuff to render it popular as against the rapid and regular stroke of the "Little Engine."

The Hamill-Myers Race.

We have already announced that Hamill had accepted the challenge of Myers, of Philadelphia, to row a five mile race, on the Delaware, for $1,000 a side, in fifteen feet working boats, without outriggers. Hamill has never rowed a race in this kind of boat, but he has not the slightest doubt of his ability not only to row in it, but to keep a very fair distance ahead of Mr. Myers, who, although not distinguished as an oarsman, has a good local reputation. Myers's ambition is commendable, and we hope he may make a good show in the contest. This race will take place on Wednesday.

The Four-Oared Race at Springfield.

The four-oared race for the championship of the world and a purse of $2,000, comes off at Springfield on Wednesday, and excites a lively interest among the lovers of aquatic sports. The race will be between the well known Ward brothers, and a crew of the St. Johns (New Brunswick) Boat Club. The race owes its origin to a challenge to the St. John champion crew by the Ward brothers to row a four-oared race at Springfield for the championship of the world. The challenge was accepted, and on the 1st of August last the representatives of both crews held a meeting at the office of the Water Power Company, of Boston, for the purpose of making preliminary arrangements for the race. John Morris appeared as the representative of the St. John crew, and Joshua Ward, Jas. Lee and Henry B. Munn appeared for the Ward brothers. According to the articles of agreement there drawn up, the conditions of the race are as follows: The stake is to be for $1,000 a side, and is to take place on Wednesday, September 11th, 1867, at four o'clock in the afternoon. The distance is for six miles, on the Connecticut river, at Springfield, Mass., it being specially agreed upon that the water shall be smooth and the weather good. The meeting throughout was amicable, both parties coming easily to an understanding. Mr. John P. Gardner was chosen referee, and Mr. William Blaikie stakeholder. The first installment of the stake—$250 on each side—was deposited in the hands of the last named gentleman at the time, and the remaining $750 was placed in his possession on the 2d instant. It will thus be seen that all of the necessary preliminaries have been arranged to the satisfaction of all parties concerned, and unless unforeseen circumstances should interfere with the proposed contest, nothing will prevent the race from taking place at the time and place indicated.

The Contestants.

As mentioned elsewhere, the four Ward brothers, Joshua, Gilbert, Harry and Charles, will be the crew on their own side. They went into training soon after the arrangements for the race were completed, and are now reported to be in splendid condition and quite confident of success. They have been under the immediate supervision of their backers, Messrs. Munn and Lee, and while rowing on the Hudson have frequently made the six miles in forty-two minutes. This excellent time they propose to beat next Wednesday, and should they do so, their opponents will have to row with unusual rapidity to keep up with them. On the 3d instant the Ward brothers started from their home at Cornwall for Springfield, taking their boat with them. It was stated that they would stop at Hartford and row from thence to Springfield.

The names of the crew of the St. John Club are Dennis McCaffrey, John McCaffrey, John Morris and Thomas McCauley. These gentlemen have been for several weeks past actively training at Rothsay, on the Kennebec, nine miles from St. John. They have kept quite secluded, but rumor ascribes to them quite as rapid rowing as their opponents have done, so that if all accounts be true the race is certain to be very close and exciting.

The Records of the Men.

The Ward brothers are known to every person in the United States who takes an interest in aquatic sports. Joshua Ward, particularly, has quite an extended reputation, and is regarded as a very dangerous opponent by all oarsmen. His numerous matches with Hamill and others have brought him prominently before the public, with whom he is a general favorite. His brothers, though not quite so well known, are splendid professionals, and will doubtless do full credit to their backers. Of the crew of the St. Johns Club but one member has ever rowed in a race, and that one is John Morris. He was one of the Neptune crew that repeatedly beat the New York, Boston and Halifax clubs, from 1855 to 1858. McCauley and the brothers McCaffrey have never rowed in a race, but are well known as splendid amateur boatsmen.

The Boats.

The boat to be used by the Ward brothers is an elegant and model craft, built of Spanish cedar by Stephen Roberts, one of the best boat builders in the country. She is forty-two feet two inches in length, twenty inches in width and nine inches deep. All who have seen her pronounce her a beautiful specimen of handiwork. In addition to this boat, which is perfectly new, the Ward brothers have taken with them to Springfield their old one in which they defeated the Biglins, so that in the event of accident, or should their new boat not be approved, they may be provided with another. Nothing is known of the boat to be used by the St. John's crew, although it may be depended upon that they will procure as good a craft as can be found in New Brunswick.

The Winner Challenged.

An impression prevails among many persons that the St. John's crew is composed of the same men who won the two international prizes at the great Paris regatta in July last. This is a mistake, as the boat of the international champions is still in Paris, and the match was made before their return to St. John. They have, however, challenged the winners of the coming race, believing themselves capable of defeating any crew that can be brought against them, after their victories over the best Oxford and London clubs. Another challenge to the winners has been sent by the Poughkeepsie Boat Club, and the Ward brothers have declared themselves ready to accept it, whether they win or lose. It will thus be seen that the race on Wednesday is likely to be the cause of two or more four-oared boat races—a result which cannot fail to be acceptable to all who take pleasure in aquatics. It is to be hoped that good weather and smooth water will greet the contestants on Wednesday next, so that it may be decided who are the champion oarsmen of the world.

THE LATEST.

By Associated Press.

NEW YORK, September 9.—The great boat race took place at Newburg this morning. The air was calm and the water smooth. Piers, housetops, shipping and every available point were crowded with men, women and children. A little before six o'clock the stake boat was set at a point two miles and a half up the river from a point off the Washington Iron Works, where had been placed the judges' boat, the course thus lying for over a mile along the river front of the city. The preliminaries were completed by the selection of Henry Munn, of New Haven, and Charles Elliott, of Greenpoint, judges on the part of Brown, and R. C. Elliott, of Pittsburgh, and John Crogan, of New York, in the same relation to Hamill. Stephen C. Roberts, of New York, was previously chosen referee.

Brown and Hamill were both promptly in position, in good condition. At 6:20 the referee gave the signal to start, and the men went off in fine style, Hamill leading and having the outside of the course. This position was kept for nearly a mile, when Brown gained on him and passed him, making a gap of a length or two, which, however, was kept but a short distance, when Hamill again took the lead, keeping it to the stake-boat, which he reached in nineteen minutes, and where occurred the collision, claimed by both to have been caused by the fault of the other.

All accounts agree that when Hamill came abreast the stake-boat he was about three lengths ahead. Brown, however, was gaining upon him with lightning-like rapidity. Hamill was now making the turn of the stake-boat, with Brown on the inside, and on the instant the bow of the latter's boat went cracking through the cockle-shell in which the former was seated. Brown's boat struck Hamill's at nearly right angle, driving a hole through it about a foot abaft the cockpit. Brown quickly backed water, extricating his boat, and turning the stake-boat came on down the course, arriving at the Judge's boat at 7:56, making the five miles in forty minutes and fifty-six seconds.

Hamill was taken on board the stake-boat and came down to the city. As reports spread, a scene of intense excitement ensued, and the headquarters of the referee was besieged by an immense crowd.

Hamill appeared on the balcony of the United States Hotel, and calling the attention of the people said: "Friends, pay over no bets; I am all right."

The judges and referee repaired to a private parlor, and went into an examination of the evidence, Hamill's judges claiming the race on the plea that Brown intentionally fouled their man, while Brown's judges as vociferously claimed for a verdict, alleging that Hamill forced a collision by stopping in Brown's course.

The following extract from the evidence will show how differently the Judges in the stake-boat looked at the affair: Elliott, Judge for Brown, says Hamill was ahead. He turned first, and was lying broadside to the track, apparently waiting for Brown to come up and foul him. Brown's boat struck Hamill's five feet from the stern, on the port side. Munn, Judge for Hamill, said Hamill was three lengths ahead; they were turning from east to west; when Hamill was turning Brown gave some tremendous pulls, which sent him into Hamill's boat before the latter could get out of the way. It was an evident foul on the part of Brown. Other witnesses were examined with the same result. How they saw it seemed to depend upon whether they were Brown or Hamill men.

Mr. Roberts and the Judges then proceeded to the balcony and called attention; when all was quiet and Roberts was about to speak, a voice at his side broke in with, "Gentlemen, as a friend of Mr. Brown, I say do not give up your money. We shall appeal." (Cheers and groans were given in response.)

When silence was again obtained, Mr. Roberts made the following announcement: "Gentlemen, having heard the testimony given by the judges on both sides, who have failed to agree, it has become my duty to decide as to the winner of this race. As Mr. Hamill was ahead when he commenced to turn the stake-boat, he had by the rules of boat-racing the right to the track. Mr. Brown should have gone outside of him. Therefore I decide that Hamill won the race."

Loud cries of "Brown! Brown! Brown! A speech from Brown!" followed this announcement, but he did not respond, and the crowd quietly dispersed.

Brown's judges have put in an appeal from the decision, but to what higher authority they do not state.

NEW YORK, September 9, 1867.

WHISKY FRAUD.

Recently, about four hundred barrels of whisky were permitted to be withdrawn from a bonded warehouse in Brooklyn by Collector Callicott. Two hundred barrels, it was subsequently ascertained, were withdrawn upon worthless bonds, and the balance without bonds good or bad. A warrant has been issued for the arrest of Callicott and his deputy, John Allen. The latter was taken, but the former is absent from city.

HARD SWEARING.

During the examination at the Tombs to-day of the case of Dan Noble, charged with complicity in the case of robbery of $200,000 worth of bonds from the Royal Insurance Company, Mrs. Elizabeth Gilchrist swore John Kean, her second husband had been dead a number of years, whereupon Kean, to her great consternation, was produced by the defense.

The steamer Malta, from Liverpool, has arrived. Her news was anticipated.

POET SELECTED.

Clarence Burt, of New York, is selected as the poet at the dedication of Antietam Cemetery.

MASS MEETING OF SERVANT GIRLS.

The servant girls of Troy held a monster mass meeting on Saturday night, to protest against further demand for money for the Fenian cause. They passed resolutions severely denouncing the manner in which the previous contributions were expended, and questioned the propriety of attempting to liberate Ireland by subjugating Canada.

REVOLUTION IN PORTO RICO.

A letter from Havana says the revolution in Porto Rico is formidable. The soldiers are joining the people. The artillery have left their quarters in the Capital and gone into the country; that the Captain General, Marchize, has hid himself or fled; that a steamer is to be sent to New York to telegraph Gen. Prim, asking him to place himself at their head.

DEATH OF GEN. COOK.

Advices from Chili state that Gen. Cook, United States Secretary of Legation at Santiago, died of disease contracted in Southern prisons during the rebellion. He was buried with military honors.

GEN. HOVEY.

Returned to Callao from Valparaiso, where he had been on a simple visit to Gen. Kilpatrick, and no diplomatic mission.

EARTHQUAKE.

A slight shock of earthquake was felt at Valparaiso on the night of the 9th ult.

MURDER.

A private letter dated Barnquillo, August 20th, says, on the 15th inst. a party of armed men, sixty in number, came in a boat and murdered the Governor of this place, the balance of the authorities succeeding in making their escape.

CONSPIRACY IN PANAMA.

Numerous documents were found on a person arrested as a revolutionist at Panama, revealing a deep laid conspiracy to overthrow the Government. Some revolutionary disturbances of small proportion were reported from Guatemala.

FRANCHISE EXTENDED.

The Columbian Congress has extended the Panama Railroad Company's franchise ninety-nine years, for a consideration of one million dollars, cash, in gold, and annual payments of a quarter of a million dollars from date.

TERRIBLE BOILER EXPLOSION.

A terrific boiler explosion occurred this evening, in the turning mill of Abram R. Welch, on Twenty-eighth street. The room was much shattered. The engineer, Jacob Madden, and the fireman, Edward Brady, were killed, and Matthew Beir, Frank Case, Jeremiah Cassiday, and John Jung, workmen, badly injured. The boiler traversed westward 430 feet, falling into the residence of Sigismund Houseman, tore out the entire rear of the house, killing two of Houseman's children and a nurse named Maria Dowling. Another servant, Mary Wilberzahl, received severe injuries.

Important Decision----Concealment of Goods with Intent to Defraud Creditors.

TITUSVILLE, PA., September 9.—The *Herald* of this city says: Myers Marks, M. J. Marks, H. J. Marks and Jacobs were to-day convicted at Warren, Pa., and received heavy fines and imprisonment for secreting the goods of M. Marks for the purpose of defrauding H. B. Claflin & Co., and other New York creditors of M. Marks. The case was a highly important one, witnesses being in attendance from New Orleans and California. Numerous parties were interested in the result of the suit in different parts of the country.

The Election in Canada.

MONTREAL, September 9.—Hon. Mr. Dorion, leader of the French Rouge party, is one hundred votes behind in the first day's polling. The Rouge party are now hopeless as to the general result. The rejoicing in Vermont over the election of Mr. Colby, the noted annexationist, caused comment here.

Trotters at Milwaukee.

MILWAUKEE, September 9.—Patchen, Fearless, Butler, Silas Rich, and Brown George are entered for the Horse Show of the Wisconsin Agricultural and Mechanical Association, commencing to-morrow. A race for twelve hundred dollars comes off on Friday.

AN exchange newspaper says that W. H. Langley, of Galliopolis, Ohio, has his life insured to the amount of $300,000; W. H. Seward, $100,000; A. T. Stewart and James M. Beebe, the dry goods kings, for nearly the same; Richard Borden, of Fall River, $140,000; while among the heavy losses paid may be mentioned Hon. Samuel Lawrence, of Boston, for 50,000; Rufus Choate, $40,000; John W. Crafts, $110,000; Ex-Governor Gilmore and Robert N. Corning, of New Hampshire, $25,000 each.

Among the bequests in the will of the late Hon. Abbott Lawrence, of Boston, was a life assurance, for the sole benefit of his wife, for $40,000, which has probably been subsisting for many years—showing the estimate which he placed upon life assurance and its security.

LONDON, September 8.—The report that the British captives in Abyssinia had gained their freedom proves untrue.

Declines Intervention.

LONDON, September 8.—The Porte has again intimated to European powers that it cannot admit of any intervention in the affairs of Candia, and therefore declines to adopt the project for a joint commission of inquiry.

The Peace Congress.

GENEVA, September 8.—The delegates to the Peace Congress are arriving from all parts of Europe. Garibaldi has reached this city from Florence. His reception by his friends and the citizens was most enthusiastic. He made a brief speech, declaring his purpose to move on Rome was unalterable, and the plan of action, although deferred, would soon be carried into effect.

Speech of Grand Duke of Baden.

PARIS, September 8.—The speech made by the Grand Duke of Baden at the opening of the Diet at Carlsruhe, in which he advocated an alliance with the North German Confederation, gives rise again to a feeling of uneasiness in political circles. Fears are entertained that recent complications will be renewed, and questions may arise which will again disturb the tranquility of Europe.

ST. LOUIS.

The Reception of General Sheridan.

Greatest Affair St. Louis Ever Witnessed.

Address by General Carl Schurz.

Reply of General Sheridan.

ST. LOUIS, September 9.—The demonstration to-night in honor of Gen. Sheridan was the largest outpouring of the people ever witnessed in St. Louis. The torchlight procession was nearly two miles long, and consisted of over twenty posts of the Grand Army of the Republic, a large number of colored organizations, representatives of the various wards of the city, the fire department, and an immense throng of citizens generally. The procession was nearly an hour filing past the Southern Hotel, on the east balcony of which Gen. Sheridan, his staff officers, members of the various committees and invited guests were stationed. The crowd at and in the vicinity of the hotel after the procession had passed must have numbered ten thousand, and the number that thronged the streets on the line of march could not have been less than from twenty to thirty thousand.

After the enthusiasm of the crowd had somewhat subsided, Lieut. Gov. Smith delivered a short but very cordial welcome to the General on behalf of the people of the State, which was followed by a very eloquent address by General Carl Schurz, in which he referred to Sheridan as the model American soldier, the hero of many hard fields, the representative of American chivalry, the statesman as well as the soldier, to whom the people of Louisiana and Texas will hereafter look with gratitude and esteem as the man who opened the way to permanent peace and prosperity.

General Sheridan then stepped forward and replied as follows: I presume you all know I never make speeches. I regret exceedingly that I am not able to make you one to-night, but this very kind welcome has been unexpected by me entirely, and I can only return my sincere thanks for your kind and enthusiastic welcome.

A few remarks were afterwards made by Gen. Pile, and the crowd gradually diminished. In point of number, enthusiasm and general warm and hearty sympathy, many of the oldest citizens say the demonstration has never been equalled in St. Louis. From eleven to one o'clock to-day the General received visitors at the hotel, and the crowd of callers was almost incessant. The General will leave for Leavenworth to-morrow afternoon.

SAN FRANCISCO.

Election Returns---Anniversary---Oregon Pig Iron---Indian Outrages---Rich Mines Discovered.

SAN FRANCISCO, September 9.—Partial returns from thirty-nine counties give Haight nearly eight thousand majority. It is thought the majority of the general Democratic ticket will be about two thousand less. The returns of the full vote of the interior are insufficient for purposes of comparison.

The anniversary of the admission of California to the Union was celebrated to-day with considerable spirit. There was a procession of pioneers, an oration, a poem and a banquet.

The State fair, just opened at Sacramento, promises to be the best for several years.

The steamer Oriflamme, from Portland on the 6th, brings one hundred thousand dollars from the Northern mines, and fifty tons of Oregon pig iron, the first invoice of iron received from the works in that State.

An expedition is fitting out to punish thieving Indians in Umatilla. The soldiers, under Lieutenant Force, had a battle with the Snakes lately at Brant river, killing and capturing a considerable number, with a loss of four soldiers killed and nine wounded. Reports of Indian outrages in Oregon, Washington, and the Idaho mining districts, are frequent. Colonel Eppinger had several brushes with the Owyhee Indians about the middle of August, killing twenty or thirty in all.

Rich placer mines are reported discovered near Pendoreilla lake.

No Quarantine at Memphis.

MEMPHIS, September 8.—The Board of Health has refused to establish a quarantine on the river, deeming it unnecessary.

Reports of the crops of Missouri and Arkansas continue favorable, but the prevalence of yellow fever on the Lower Mississippi will greatly retard the bringing of cotton to market.

Insolvency in Richmond.

RICHMOND, September 9.—The commercial failures reported by special telegram to the Northern press are false. None have occurred. Commercial bills are being met as promptly as ever before. Some parties out of the commercial circles, and insolvent at the fall of Richmond, have gone into bankruptcy.

Yellow Fever in New Orleans.

NEW ORLEANS, September 9.—Total deaths from yellow fever, for the week ending yesterday were two hundred and forty-nine. Total for the twenty-four hours ending yesterday morning, forty-nine; ending this morning, fifty-one.

Reduction of the State Debt.

HARRISBURG, September 9.—Governor Geary has issued a proclamation stating that $1,794,644 50 of the debt of the Commonwealth was paid during the year ending September 2d.

Brig Wrecked.

FORTRESS MONROE, September 9.—The British brig Cuba, from Matanzas, was wrecked near Hatteras. The Captain was badly injured and six persons drowned.

MAINE.

THE ELECTION YESTERDAY.

ANOTHER REPUBLICAN VICTORY.

UNION MAJORITY ABOUT 13,500.

LARGE FALLING OFF IN THE VOTE.

PORTLAND, September 9.—The following returns of elections have been received:

Towns.	Chamberlain.	Pillsbury.
Portland	2,025	1,311
Lewiston	777	304
Bangor	1,305	1,033
Gardiner	499	270
Pittston	218	262
Scarboro	114	223
Bath	768	386
Falmouth	145	170
Cape Elizabeth	316	312
Brunswick	416	395
Paris	383	202
Gorham	321	229

Sixteen towns gives Chamberlain, Republican, 8,089, and Pillsbury, Democrat, 5,639, being a majority of 2,450 for Chamberlain. The same towns last year gave Chamberlain a majority of 5,819, showing a Democratic gain this year of 3,369. There is a Republican loss in Bath of 27. Bedford gives a Democratic majority of 240 against 90 last year.

LATER—One hundred and nine towns give Chamberlain, Republican, 27,715, and Pillsbury 18,683. The same towns last year gave Chamberlain 31,650, and Pillsbury 16,565. Chamberlain's majority this year is 6,032, against 15,085 in the same towns last year, making a Republican loss of 9,053. The aggregate vote in these towns is 43,398, against 48,215 last year. The total vote of the State last year was 111,584; this year it will probably fall a little under 100,000. Three-sevenths of the State is in, with a loss of nine-fifteenths of the majority last year. The same ratio will reduce the Republican majority to about 13,500. For a loss of 1,400. The Democrats will gain Representatives in some towns, but not enough to give them much power in the Legislature.

CITY MATTERS.

Extensive Depredations on Railway Trains---Recovery of Stolen Goods---Arrest of the Thieves.

For some time past the officers of the Pittsburgh, Columbus and Cincinnati Railroad have been cognizant of the fact that considerable quantities of goods had been missed at intervals from the freight cars of the Union line, and the conclusion was unmistakable that the goods had been stolen. Having ascertained this, officer Hackett, one of the most experienced railroad detectives in the country, was employed to work up the case. Some three weeks ago Mr. Hackett commenced work, and we are gratified to learn, through our Steubenville correspondent, that he has succeeded in ferreting out the thieves, and has no less than four of them in custody. The following are the facts, so far as they have been developed:

On Sunday evening, at seven o'clock, Mr. Hackett left this city on the passenger train, (No. 29,) and when he arrived at Dennison, Ohio, ninety-three miles distant, he found four of the "spotted" parties on the train, with carpet sacks well filled, and with tickets to carry them through to Columbus. He at once arrested the whole party, and on searching their carpet sacks it was discovered that they were filled with stolen goods, consisting of boots, shoes, etc., valued at between four and five hundred dollars. The men were all handcuffed together, and conveyed to Newark, where they were committed to jail to answer charges of larceny. Their names are Davis, Hart, Hays and Wood. Davis and Clark belong to Columbus, Philo Hays lives at Urichsville, and Wood hails from Pittsburgh. The goods found in their possession had been taken from the Union line on Saturday night and Sunday morning, as they lay over at Dennison station. Two of the men worked in the machine shops at Dennison, and it is supposed that they gained access to the cars by using false keys. After the goods had been removed, the boxes or cases were carried to some secret place and unpacked. Here they were transferred to carpet sacks for the purpose of being conveyed to Columbus and other points, where they would have been disposed of in various ways. Some eighteen or twenty persons are supposed to be implicated in these larcenies, and other arrests will doubtless follow. The gang seems to have been well organized, and they must have carried on their operations with considerable skill, to have avoided arrest so long. The nest will now be effectually broken up and the principal villains brought to condign punishment.

Base Ball.

SECOND MATCH BETWEEN THE ENTERPRISE AND LINCOLN—THE FORMER VICTORIOUS.

The second match of the series of three for the championship of Western Pennsylvania, between the Enterprise and Lincoln Base Ball Clubs of this city, took place yesterday afternoon at the Union Park, Allegheny. The game was one of the best contested that has ever taken place here, and was witnessed by nearly one thousand persons. The playing of both clubs was excellent, and the game resulted in a victory for the Enterprise, so that the next match will decide which club is entitled to the championship honors. At three o'clock, game was called by the Umpire. The Lincoln during the first part of the game took the lead, and in the second innings made a run of sixteen by most excellent batting, their opponents, however, going out with fourteen added to their score on same inning. During portions of the game there were some fine displays made. Lawrence, of the Lincoln, especially deserves credit for the able manner in which he played short stop. Loughrey played better than ever, making a clear score.

Smith, T. McClintock and Carpenter were up to their usual work, the former attending to first base in a manner that would have reflected credit on most players of more reputation. Carpenter has shown himself to be one of the best players in this vicinity; his fielding could not have been better. Kurtz, Lane and W. McClintock were all good in their respective positions, as was also McClelland on the left field. Jack Irwin, of the Enterprise, led the score, by his magnificent batting. Pratt, who has recovered from his late indisposition, played with all his energy and ability. McKnight never did better behind the bat than on yesterday, some of his catches being exceedingly fine. Stuart was the right man in the right place beyond a doubt, as he proved himself by his fielding and batting. Altogether the contest was a very interesting, one and reflects creditit upon all participating in it, although the score is somewhat larger than a closely contested game should be. Mr. Lee fully sustained his reputation as an impartial and able umpire. Below will be found the score:

ENTERPRISE.	O.	R.	LINCOLN.	O.	R.
Earle, 2d b	4	4	T. McClintock, c	2	5
Graham, s s	3	5	Lawrence, s s	2	4

Passed balls—Enterprise, 11; Lincoln, 20.
Called balls—Enterprise, 5; Lincoln, 10.
Fly catches—Enterprise, 7; Lincoln, 10.
Fly catches missed—Enterprise, 3; Lincoln, 10.
Umpire—S. M. Lee, of the Hiawatha B. B. C., of Kittaning, Pa.
Scorers—For Enterprise, Col. J. W. Simpson; for Lincoln, E. G. Edrington.

Meeting of Select Council—The Nicolson Pavement.

A special meeting of the Select Council was called for last evening. Upon the arrival of the hour for organizing, the following gentlemen were present: Messrs. C. A. Armstrong, Geo. W. Coffin, Dav. Crawford, Dr. T. J. Gallaher, John C. McCarthy, Samuel Morrow, H. E. White and James McAuley, President.

The President stated that the meeting had been called at the instance of the Committee on Streets, but, as he had anticipated, a quorum was not present, and as no business could be transacted, a motion to adjourn would be in order. Council then adjourned.

The principal object for which the meeting had been called, was to determine whether Wood and Fifth streets should be paved with the Nicolson pavement. Many of the property holders on Wood street, between the river and Fifth street, had petitioned Councils to have the improvement made, and the request had been acceded to by the Common branch. In the meantime a proposition was made to continue the paving from Wood to Liberty street, and presuming that the matter would be brought up at the meeting last night, a remonstrance against the measure, signed by H. Childs & Co., James Bown, H. Kleber & Bro., Olnhausen & Crawford, and a number of other citizens, owning property fronting on the street, was prepared and placed in the hands of Dr. Gallaher. Owing to the absence of a quorum of the members, however, the matter was not broached. It is understood that a number of the members of the Select Council are opposed to concurring in the action of the Common branch, as they assert that the majority of the owners of property along the line of the proposed improvement have refused to ask for it, and in case it is ordered the city will be liable for the payment of the additional cost incurred. They also state that the contractor for the erection of the sewers on Wood and Fifth streets have engaged to repave the streets with cobble stones without additional expense, and that the streets can be paved at some future time as cheaply as at present. The friends and opponents of the improvement will doubtless agitate the subject, and force Councils to come to some definite conclusion at their next meeting three weeks hence.

TEMPERANCE MEETING.—The Allegheny Temperance League will meet this evening in the Reformed Presbyterian (Rev. J. McMillan's) church, Sandusky street. Addresses will be made by William Little, Esq., and Rev. John McMillan. The popular choir of the League will be present.

The Criminal Court.

The Court of Quarter Sessions assembled yesterday morning at nine o'clock, Judge Stowe on the bench.

AGGRAVATED ASSAULT AND BATTERY.

Thomas Thompson was arraigned on two charges of aggravated assault and battery, preferred against him by Mr. and Mrs. David Hutchinson. Mrs. Hutchinson, who was the first witness called, testified that about the middle of March last, the defendant assaulted her in front of her residence on Stevenson street, in the Eighth ward, and struck her with a club a number of times on the head and shoulders, inflicting a deep cut on the top of her head. Her husband then went out, and was also assaulted by defendant, and his head injured. The difficulty grew out of defendant placing a load of coal in front of witness's dwelling.

Mr. Morrison, a neighbor, witnessed the assault, and stated that it was occasioned by defendant leading his horse along the cinder path in front of Mr. Hutchinson's house. Mrs. H. remonstrated with him, when he struck her with the rest stick of his cart.

Mr. Hutchinson testified that he was sitting in his dining-room, when his wife came in with blood running down her face. He went out and demanded an explanation from Thompson, when he assaulted him with a stick, breaking several bones of his left hand, and inflicting a severe cut on his head. The defendant was a coal hauler.

Christopher McGee was sworn and corroborated the statements of the previous witnesses.

For the defense it was alleged that no assault and battery had been committed, Thompson having simply acted in self-defense. David Townsend, a colored man, testified that Mrs. Hutchinson was throwing stones at Thompson, who, in self-defense, struck her.

Judge Mellon testified that he had known defendant for two or three years, and his character was that of a quiet and industrious man. Thomas A. Mellon and David Steen also testified to defendant's good character. The Judge then charged the Jury, when it retired, and in a short time rendered a verdict of guilty on both charges. Sentence deferred.

LARCENY.

Jeremiah Dillage, was found guilty on a charge of the larceny of a table cloth, and was sentenced to an imprisonment of ten days in the county jail. George Walters was tried on a similar charge and acquitted.

SENT TO THE PENITENTIARY.

Edward W. Porter, indicted for entering the house of Amos Stiff, on Roberts street, in the Seventh ward, and stealing seventy-one cents in coppers and a penknife, entered a plea of guilty, when the Court sentenced him to pay the costs of prosecution, a fine of six cents, and undergo an imprisonment in the Western Penitentiary for and during the period of one year.

ASSAULT AND BATTERY.

Henry Lentz, Albert Benoit and Michael O'Gowdy were tried on charges of assault and battery. Lentz was found guilty and sentenced to pay a fine of ten dollars and costs, Benoit not guilty, but to pay costs, and O'Gowdy was acquitted.

DEFAULTING WITNESSES.

Patrick Coyle, Michal Welsh and Patrick Copne, were brought into court on attachments, for neglecting to appear before the Grand Jury and testify in the case of the Commonwealth vs. Richard Adams. The Court fined them ten dollars each for contempt, and committed them to jail until the case is ready for trial.

Educational Matters in Fayette County.

Special Correspondence of Pittsburgh Commercial.

NEW SALEM, PENNA., September 9, 1867.

The Fayette County Teacher's Institute met at this place on the 3d inst., according to adjournment of the last session. The teachers came in on a "grand rally," numbering about seventy-five. The performances consisted of lectures, orations, select readings, debates, queries, resolutions, class drills, &c. The performances throughout were very fine—the debates exciting, and the discussions to the point. The teachers seemed to feel the importance of their mission, and the necessity of putting forth every exertion to advance the interest of education. All labored with a zeal and determination to make the standard of Public Schools as high as any in the State.

The Institute lasted four days, making in all twelve sessions, and closed on Friday night to meet at the call of the County Superintendent. We would say in this connection that the people, as well as the teachers, are getting fully alive to the wants of the public schools of the county, and providing means to secure the greatest amount of education to the pupil in the shortest time.

A movement is now started for the establishment of a County Normal School at this place, which, if successful, will aid materially in the advancement of education. HOMERUS.

A Strange Occurrence—Probable Murder.

On Saturday, August 24, Adley Rankin, a lad aged fifteen years, left his home in Elizabeth township, and, although diligent search was made for him, his whereabouts could not be discovered until the succeeding Friday, when he was found hanging by the neck in Mr. Daniel Rankin's barn, near Elrod's Ferry. It was at first supposed the lad had committed suicide, but it is now thought that he has been foully dealt with by some unknown parties. The occurrence has created considerable excitement in the neighborhood, but no satisfactory solution of the mystery has yet been arrived at. During the past few months the farmers and merchants in Elizabeth township, have been greatly annoyed by the depredations of thieves, and from the number of robberies which have occurred, it is believed that an organized band of robbers are at work in that vicinity. The store of Mr. C. S. Lucas was entered some time since and a quantity of goods stolen, and subsequently the establishment of Mr. Grant, at Greenoak was robbed of a lot of merchandise. On Saturday last, a portion of the stolen goods were found near Elrod's Ferry, together with a quantity of harness, which had evidently been stolen from the farmers of the county. Some effort should be made to have the facts connected with the death of young Rankin investigated into.

OPERA HOUSE.—Miss Charlotte Thompson was greeted last evening by a fine audience, who appeared delighted at her happy rendition of the character of "Fanchon." "Victorine, or I'll Sleep On It," is announced for this evening, the performance concluding with the laughable farce of the "Two Gregories."

THE KELLER MURDER CASE.—The trial of Victor G. Keller, charged with the murder of young Goolrich, in Allegheny, has been fixed for this morning, in the Court of Oyer and Terminer.

Gratifying to Students.

It will be gratifying to the young lady students about to enter at the Beaver Ladies' Seminary, to know that the Principal, Dr. L. A. McLean, has just purchased a splendid Decker piano for their use. It is the new square grand style, and is remarkable for the pure and mellow sweetness of its tone, its easy touch, and its elegant appearance; it has been the admiration of all who have seen and heard it, and one of our most distinguished professors of music has pronounced it the finest piano he ever touched. Dr. McLean does a good service to the cause of music, in placing such an instrument in his institution. This piano was furnished from the piano rooms of Mr. C. C. Mellor, the sole agent in this city for the Decker pianos.

FOR SALE—VALUABLE PROPERTY IN ALLEGHENY.—A lot of ground fronting 118 feet on South avenue, extending back from the river 165 feet to a 20 foot public way, which divides it from the lots fronting on Rebecca street, thus having access both front and rear. The river frontage is the finest in the two cities. The situation and surface appearance of this ground is most striking, and affords the choicest opportunity now available for an elegant residence in the coolest and quietest part of Allegheny, while, at the same time, but a few steps from the city railroad, which connects it with the business portion of Allegheny or Pittsburgh. On this property stand the finest shade trees in this vicinity. One of these is probably unequaled in the State, or indeed in many States, being an elm of several centuries growth, measuring nine feet diameter through its trunk at head height from the ground, and extending its shade over an area of nearly 8,000 square feet. An old style mansion house stands upon the property, as well as out-houses. The owner, regarding it as little short of sacrilege to divide this splendid property, desires to dispose of it as a whole to one purchaser, and the sum asked for it is unquestionably low. For price and terms apply to GEO. H. HOLTZMAN, Real Estate Broker, 146 Wood street, Board of Trade Rooms, Pittsburgh.

FOR SALE--REAL ESTATE.

FOR SALE—FARM—An excellent Farm of 221 acres, situated about one mile from a proposed Station on the Chartiers Valley Railroad, which is now about to be completed, and 12 miles from the city by the Washington Pike, which runs through the place, dividing it into two nearly equal parts. About 170 acres cleared and in good productive condition—the rest is covered with the finest white oak timber. It is well watered, and the whole farm is underlaid with the Pittsburgh vein of coal. A good Brick Mansion of 10 Rooms, and a tenant house. Will be sold in whole or in parts to suit purchasers. For terms, apply to N. W. SHAFFER, Esq., 83 Diamond street; or J. S. RANKIN, M. D., 100 Fifth street.

The Daily Commercial

MONDAY, SEPTEMBER 9, 1867.

THE COMMERCIAL is the largest daily paper in the State, and gives daily one-fourth more reading than any other paper in Pittsburgh. It is the only Pittsburgh paper that uses the telegraph liberally, gives full market reports, and all the news of the day.

OUR CANDIDATE.

Hon. Henry W. Williams.

[From the Pittsburgh Post, June 28.]

WORTHY CANDIDATES.

"The nomination of Henry W. Williams as a candidate for Judge of the Suprema Court, is a good one. He was the best man named before the Republican Convention, and possesses legal and moral qualifications for the responsible position to which he has been nominated. Both parties have now presented their candidates. An important duty has been faithfully discharged by the respective conventions. The campaign may now be conducted without personal aspersions, and decided upon the principles of the two great parties. This is as it should be."

[From the Pittsburgh Post, August 29.]

If the notice of Judge Williams's nomination which appeared in the "*Post*" at the time, and now kept standing at the head of the Republican papers, is intended as a rebuke for any supposed inconsistency since, it fails in its purpose. We have nothing to take back or modify. Of Judge Williams's private or legal reputation we have nothing but words of praise, and however it may suit some pugnacious and heady politicians, we cannot bring ourselves to view personal assaults as either wise or politic. The Democracy plants itself upon principle and deals with facts, and discusses the public and official acts of candidates.

THE Republicans of the Twenty-first Senatorial District met in convention at Lewistown, on Friday last, and nominated as their candidates for the State Senate Col. JOHN H. ROBINSON, of Juniata county, and SAMUEL MCVITTY, Esq., of Huntingdon county, over Messrs. HALL and HAINES, the present Senators. The contest between Senator LEWIS M. HALL, the Speaker of the Senate, and Col. ROBINSON, which ended in the defeat of the former, had been earnest and protracted. Col. ROBINSON has an established reputation for bravery as a soldier and integrity as a civilian. Mr. MCVITTY is well and favorably known, and like his colleague, deserves the compliment conveyed in the nomination. Both are sound Republicans.

A GENTLEMAN who left Washington Saturday evening informs us that the supporters of the Government, in view of the course of the President and the influence which men as bad and reckless as himself have obtained over him, entertain grave apprehensions as to the immediate future. While crediting Mr. JOHNSON with a desperate willingness to do almost anything, true men have perfect confidence in Gen. GRANT, and rely on him in the dreadful emergency which there is too much reason to apprehend is close upon us. The rebels in and around Washington, we are assured, are jubilant. In Baltimore, under the title and form of the "State Guards," they are well armed and drill regularly, almost uniformly under officers who were in the rebel army. In this respect there is a striking resemblance to the state of things that existed early in 1861, when BUCHANAN's treason first began to develope itself.

THE good time, expected by the rebels in 1861, is now looked for as near at hand. The promised help of the Northern Democracy is now again offered. The pledge is to be redeemed. JERRY BLACK, the head of Pennsylvania Democracy, has taken the matter in hand. ANDREW JOHNSON is the instrument. His proclamation is the means. Congress and its reconstruction laws are ignored. Loyalty is at a discount in the Government, and Government bonds will sink with it. Rebels are jubilant, having lost nothing by their crimes but their slaves, and these they will get pay for, under the new regime—when it comes. But the will of the people stands in the way yet, and, while their reason, their conscience or their pockets have any influence on their action, there their will remains, fixed in opposition to the unscrupulous schemes of the Democracy and the rebels, with ANDREW JOHNSON at their head.

REPUDIATION THE DEMOCRATIC IDEA.

Whoever has paid attention to the gradual progress which Democratic presses and orators have made towards the naked proposition that our National Debt shall be repudiated, cannot doubt that it is the Central Idea in the Democratic Creed, as revised and expounded by PENDLETON and VALLANDIGHAM, of Ohio, and BLACK, SHARSWOOD & Co., of Pennsylvania—all champions of JOHNSON in his desperate endeavors to neutralize the results of the war. There is great reason why the people should be awakened to the peril which threatens the country from this source. It is no idle alarm. Repudiation springs naturally from opposition to loyal reconstruction. It is the next step in the path in which the Democratic party, with more than usual courage, is now treading. The portents are unmistakable, and receive some new and more alarming aspect every day. Pass the Government into the hands of the Democratic party, and practical repudiation will ensue. Reluctant as some may be to credit this, it is all too true. We ask, is repudiation worse than secession—worse than the peace-at-any price doctrine so openly proclaimed at the most critical period of the war? And does not repudiation proceed from the same men who were openly for secession at the beginning, and were for Southern independence to the end; and have they not the desperate President and the whole Democratic party at their backs now? So the case stands to-day. In the last number of the *Nation* is an able article on the subject, to the following extract from which we invite candid attention:

"Almost any male animal will fight, but it is only the *elite* of the human race which, when the fighting is over, will sit down in the calm of peace and doggedly and industriously *pay*. Demagogues know this, of course, perfectly well, and count on it, so that, whether they have in the first instance advocated the war or not, they are pretty sure, when it is over, to advise people to repudiate.

"The leaders of the Democratic party have, perhaps, stronger reasons for urging repudiation than any other demagogues have ever had. In the first place, they violently opposed the war, and predicted steadily and persistently that the money borrowed for it would never be refunded. Therefore, they have the ordinary human interest in bringing about the fulfillment of their own prophecies. In the second place, they look on the public debt as a great instrument of national consolidation, and to consolidation they are violently opposed; and if they should succeed in breaking down the national credit at this juncture, they feel satisfied that the United States would never again be able to borrow on any great scale or for any great enterprise—certainly never to resist a new attempt at secession. Moreover, they are the friends of only one 'section,' and that is the South. To them New England is nothing, and New York is nothing, and the West is nothing; but for the South as a unit they have a real tenderness. Now, the South will probably feel the burden of the debt more than any other part of the country. To her it is not simply a debt, it is a penalty, and a very humiliating penalty—a moral as well as a physical burden. It is at once the sign and memorial of her defeat. To get rid of the debt is, therefore, the highest service the Democrats can render the South, and, perhaps, the only way they can hope to win back the Southern whites into the old alliance."

THE oath prescribed by the new amnesty is distinguished for its simplicity. It binds the returning rebel to just two things—to support the Constitution, and to support all laws and proclamations which have been made during the rebellion with reference to the emancipation of slaves. The first is easily done, so far as to meet a flexible interpretation of the Constitution, and the latter is unavoidable because the negroes would be too many for them, if they should try to do otherwise. All other laws made during the rebellion, or since, all fiscal regulations, all determinations with reference to the National debt, and all laws of Congress for the restoration of the seceded States on just grounds, are left as debatable matters, to be decided on after these "fourteen extensive classes" are, under Mr. JOHNSON's generous indorsement, brought into working relations with their Democratic friends. How they will dispose of Government pledges and credit, it requires no gift of prophecy to foretell, provided they once got the power, to back their wishes. Mr. JOHNSON has indorsed the rebels, the Democrats indorse both. The coming elections must give Republican majorities that will defeat all the three, and save the country from the imminent danger with which a treacherous conspiracy threatens it.

AMNESTY AND PARDON TO REBELS.

A skirmish line of whereases precedes the formidable and truly sweeping force of the Proclamation. With the historical whereases we have no fault to find. Their number and their correctness and their array in front indicate shrewd strategy, designed to cover corrupt and dangerous conclusions. Such conclusions, therefore, follow in the Proclamation, and discriminating minds will not be prevented by the deploying of earlier and wiser proclamations before them from discovering their character. Those of the whereases which embody nothing but Mr. JOHNSON's opinions and special pleadings and demagogical slang with which all party papers have been filled from time immemorial, are, of course, open to grave objection. These general statements we shall endeavor to confirm by a particular though brief review, and so to demonstrate the utter destitution of moral force in the entire performance.

It is true that Congress, early in 1861, near the beginning of the insurrection, did issue the declaratory act setting forth its purposes in conducting the war. It is also true that Mr. LINCOLN did issue in 1863 and in 1864 proclamations offering amnesty to certain classes of insurgents. But these cases can, in no justifiable sense, be taken as precedents for the present action, nor can they be offered as arguments for it. The declaratory act and the two amnesty offers were strictly war measures to aid in suppressing the existing insurrection, and to induce rebels to return to their loyalty, and restore the authority of the United States. These designs are admitted in Mr. JOHNSON's present proclamation—whereas number two and three. But they were ineffectual. The insurrection was not suppressed, the amnesties offered were laughed at, and the work of treason and bloodshed went on. By what claim of logic, justice or common sense are these historical and unavailing endeavors of the Government forced into service as arguments for the present arbitrary and iniquitous proceeding? How can government acts designed to prevent or, like decisive battles, to terminate treason and war, be pleaded in behalf of the guilty traitors who, trampling on the offers of amnesty, persisted in their treason and war, long years afterwards, till they were disabled by the strong arm of power.

We come down now to Mr. JOHNSON's administration, and to his amnesty of May 29th, 1865. This was like Mr. LINCOLN's as to its design. As Mr. JOHNSON justly says in his present proclamation, it had "the *same objects*;" that is, the suppression of the rebellion, the return of the insurgents to their loyalty and the restoration of the authority of the middle States. In that proclamation "*fourteen extensive classes*" were excluded from the offer of amnesty. On what grounds are nearly all of these embraced in the amnesty of yesterday? By common consent their disposition to become good citizens is less apparent now than it was then, in the despondency of recent defeat. And besides, on the principles and the logic of this proclamation those who are now excepted might as well be included as those who are embraced in it, and would be, probably, but for the sake of little and a transient show of respect for the judgment of the loyal people. As it stands, it shows a large advance toward a total disregard of their will.

The opinions, platitudes, party and demagogue talk, embraced in the last two of the President's whereases, are entitled to no more respect in a solemn Proclamation than they are accustomed to receive, as are spread out purposely in the newspapers that have been ringing with them, in favor of the rebellion ever since the rebellion began. They show how deeply the rebels themselves and those who favored them, have been concerned in the suggestion and construction of this bad Proclamation. They also demonstrate more clearly than any previous action of Mr. JOHNSON, how completely he is in their hands, and how recreant he has become not merely to the party that elected him, but—which is more important—to the decisions of the war and to the best interests of the country.

THE cable dispatch concerning the diplomatic correspondence between England and the United States in regard to the Alabama claims seems, looking at it in the best light, to be very incomplete and unsatisfactory. It is to be observed among other points, that nothing is said of the question of the hasty recognition of rebel belligerency, as to which it is known Mr. Seward was especially strenuous. The following from the Pall Mall *Gazette* of the 19th ult. contains rather more information on this important topic:

"If apparently authentic advices from Washington are to be credited, the recent correspondence between the representatives of the English and United States governments will be, if ever published, curious reading. This correspondence does not seem to have been carried on in a severely formal way, and it is possible that there was a preliminary agreement that it should not be published, at least in full. However, there is substantial reason to believe that after failing to induce the English government to permit the recognition of the South as a belligerent to be associated with the Alabama claims in arbitration, Mr. Seward made a strenuous effort to secure some considerable portion of the British possessions in America in connection with an adjustment of those claims. This second project of the American Secretary has also failed, and the English Minister is, we believe, yet without a plain response to his original offer to submit the Alabama claims."

Whatever may be thought of what is said here concerning Mr. Seward's ambitious projects for the acquisition of territory, it may well be doubted whether he has allowed them to appear very clearly in black and white. The hint given by the Pall Mall *Gazette*, that only a portion of the correspondence will be at present made public, is, we think, worth considering.

THE *Nation* says "It is now no secret that Chief Justice Chase is the favorite candidate of the Radicals for the Presidency." It would be more satisfactory had the *Nation* made known by what process it arrived at this conclusion. Would it not have been more correct had it spoken of what it denominates as "no secret" as really so much of a one that few know it? The *Nation* adds, suggestively:

"We have no doubt that most thoughtful men will agree with us when we say that an amendment to the Constitution forbidding the Chief Justice, or, in fact, any Judge of the Supreme Court, from ever holding any office in government, would be a national gain. We will go further, and say that all the good Chief Justice Chase has done by his political services since his accession to the bench has been very dearly bought by the manner in which it has been necessary for him to render them. We trust, too, that the mental constitution which makes the holder of such a position as the Chief-Justiceship of the United States—we know of no other equal to it in the world—long for one which an Andrew Johnson can win and fill, is singular and rare, and will long continue to be so."

BURNING SPRINGS OIL REGION.—A correspondent writing from the Burning Springs, Va., oil field, estimates the daily production of petroleum at 495 barrels. There is held on the river awaiting shipment about 22,000 barrels of oil, much the greater portion of which will find a market in this city. Several new strikes are reported, and development of territory continues.

THE Baltimore and Ohio Railroad Company have broken ground for the erection of a bridge across the Ohio river at Parkersburg, West Virginia.

FOURTEEN out of twenty-six convicts who recently escaped from the West Virginia Penitentiary have been recaptured and returned to their old quarters.

MR. CRAWSHAY, the late iron-master millionaire, went into his garden one day, and pointing to a row of gooseberry trees, abruptly told the gardner to take them all up and stick the branches into the earth, having the roots turn upwards. "They don't seem to grow as they ara," he remarked, "so I'll try my plan." Mr. Crawshay then turned away abruptly, whilst the gardner, without making any reply, immediately set to work. In a few hours the job was completed, and upon Mr. Crawshay returning and finding that his commands had been obeyed, he observed—"That's all right; put 'em back again. I only did it to try ye; you'll do. I believe I've got a sensible fellow at last."

THE Turkish Sultan, on his recent visit to England, astonished the English people with his liberal views on Christianity. The English Primate, in a speech lately made at Maidstone, said: "You all know the Sultan has been here lately, the enemy, or supposed enemy, of Christianity. I was informed by the Prince of Wales, a few days ago, that, in answer to an entreaty to him to protect his Christian subjects, the Sultan's answer was—and a most remarkable one—'I will not only protect my Christian subjects, but I will protect Christianity.' I think that a most remarkable answer."

The English and Abyssinia.

The English Government is in a war with the Abyssinians, should they not relinquish their purpose, will have somewhat the same sort of a business on its hands, that we have with the remote western Indians. Like our enemy, theirs is a great way off, hard to catch when they get him, and hard to beat when they get a chance to fight him. All this tends, as we are learning in our case, to increase enormously the current expenses of the war, and also greatly to protract it. The country can be reached by an English force only by sea, and that only after a very long voyage. The coast along the Red sea, and for many miles back, is a sandy and scarcely peopled desert. The population, supposed to be over three million in number, occupy the interior high and rough table lands. Civil war is chronic among them and has been for a century, and of course they are expert, at least, in the art of evasive strategy, like our Indians. Added to this, they have the protection, against strangers, of a hot and unhealthy climate, the entire country lying in the tropics.

The combination of obstacles—the voyage, the barricade of deserts, the heat, the unhealthiness, the difficulties of inland transportation, the wildness of the peopled country when reached, and the warlike habits of the people—will make it a costly, perilous and uncertain expedition. The Government has, however, undertaken it. It may be that the recent intelligence of the escape or release of the captive Englishmen, about whom the difficulty was commenced, may afford available grounds for relinquishing the enterprise. It was with reluctance, and only after strong pressure from popular will, that the Government resolved to chastise the natives and release their imprisoned and maltreated captives, and it will not be slow to avail itself of an adequate pretext for abandoning the enterprise which is attended with so many and such serious difficulties. Our own unavailing and costly operations against the Indians might, perhaps, be advantageously submitted to the influence of a sober, second thought, with hopes of a similar result.

The Cholera in Rome.

The cholera came to Rome with signs and wonders that would have delighted a Pliny or Herodotus, and which modern archers of the long bow detail with no inconsiderable unction. The citizens and strangers in Rome, it seems, were imprudent and defiant. They sat out of doors late into the miasmatic night. They drank and they feasted. They ate immoderately of watermelons and unwholesome fruits. They laughed at the cholera; they ate what they called "cholera pie," and they challenged the destroyer in every way. "True is it," says a devout correspondent, "that Providence will not tolerate his chastisements to be trifled with." And, sure enough, one day the atmosphere took on a chill, and before sunset a thick black cloud came up from the sea, giving out a stench as of putrid insects, and settling over the jovial but doomed Albano, dissolved there. Within forty-eight hours two hundred and fifty corpses told that the cholera had arrived, and multitudes were groaning with cramps or turning blue in collapse. For two days the pestilence raged and then departed as suddenly as it came. Wise men lay it to the black and offensive odorous cloud, which they say came from the swamps of Sardinia, where clouds of locusts perished not long since.

Fall of Rain in August.

Mr. Weatherhead's meterological record at Springfield, Mass., shows that rain fell on eleven days in August, the whole amount being 10.15 inches, which is a larger quantity than has fallen in any one month since August, 1856, when the fall was 11.72 inches. In August, 1866, the fall was only 2.83 inches. The whole amount of rain and melted snow which has fallen in the first eight months of this year is 38.36 inches, which is the most for the same months since 1850, the wettest year for the last twenty, and a year when the rainfall of those eight months reached the extraordinary height of 39.72 inches. During the same months in 1863, the amount was 35.83 inches, as much as falls sometimes in an entire year.

PERSONAL.

—John G. Saxe says: Powers, who is the oldest, and in his (Saxe's) estimation, the ablest of American artists at Florence, is the busiest and happiest of men." He has been absent from his native land for thirty years, and will probably never return, though he regards it with the warmest affection. He has many children, several of whom are married and settled in Florence.

—One of the most extraordinary charges of literary or artistic fraud ever made is now under discussion in England. Sir Charles Barry, as everybody knows, was the architect of the Houses of Parliament at Westminster. He was knighted for his services, and made fame and fortune out of them, and is now dead. Now come the sons of Mr. Pugin, perhaps in his day, the first architect in the world, and offer to prove from their father's journal, and other documents, that their father did all the work for the building for Sir Charles for the small sum of £400, while Sir Charles took all the credit of it before the world.

—Mr. Dickens is preceded in his visit to this country by the Rev. Charles Kingsley, whose sympathies during the late rebellion were not, perhaps, different from those of the author of "Martin Chuzzlewit," nor—which is the real grievance—from those of the leading men of letters in England, of whom, from Carlyle to the Poet Laureate, we had a right to expect better things. Mr. Kingsley's connection with the Eyre defense is another drawback to our holding him in the highest esteem; but that is properly a home affair, and here he will scarcely be reminded of his admiration of Jefferson Davis.

—The Princess of Wales, they say, will never recover from the stiffness of her knee. The Prince is also very stiff-necked.

—As the trial of General Cole approaches, considerable interest is being manifested at Albany. General Cole is offered the services of many eminent counsel, among whom are Sanford E. Church, General Nye and General Butler, on whose staff Cole formerly served. The criminal lawyer, W. I. Hadley, will probably defend him, however, without assistance. Cole himself is occupying comfortable quarters in the jail, and spends his time in reading and writing.

—One who heard Dickens read the first time in public—the place being the English town of Peterborough—says: It was "Christmas Carol" that Mr. Dickens read; the night was Christmas Eve. As the clock struck the appointed hour, a red, jovial face, unrelieved by the heavy moustache which the novelist has since assumed; a broad, high forehead, and a perfectly Micawber-like expanse of shirt-collar and front appeared above the red baize box, and a full, sonorous voice rang out the words "*Marley-was-dead-to-begin-with*," then paused, as if to take in the character of the audience. No need of further hesitation. The voice held all spell-bound. Its depth of quiet feeling when the ghost of past Christmases led the dreamer to the long-forgotten scenes of his boyhood—its embodiment of purely good nature when old Fezziwig's calves were twinkling in the dance—its tearful suggestiveness when the spirit of Christmases to come pointed to the nettle-grown, neglected grave of the unloved man—its exquisite pathos by the death-bed of Tiny Tim, dwell yet in memory like a long-known tune.

—Young Madame Grivars, who was convicted on the 15th of August, at Melun, of having assassinated Madame Mertens, a rich old demirep, in the forest of Fontainbleau, was, four or five years ago, the leading belle of the *demi monde* of Brussels, and refused the brilliant proposals of marriage which an infatuated Russian nobleman made to her. She fainted in the court room on hearing the presiding judge pronounce her doom—hard labor for life. After being conveyed back to her cell, she sent for the Inspector of the prison, and inquired what fate was in store for her. The officer told her that she would be confined for three years in a solitary cell in one of the Maison Centrales, and then be transported beyond the seas to New Caledonia. If she conducted herself to the satisfaction of the prison authorities, she would, perhaps, be granted permission to go to Cayenne, on condition of marrying one of the convicts there. On hearing this, the unfortunate woman burst into loud lamentations, and exclaimed again and again that death would be preferable to such a lot.

—The Empress Eugenie cannot reconcile her ancient differences with M. Fould, the well known finance minister of her imperial lord. The trouble began when the Empress first commenced giving those lavish *fêtes*, of which all the world has heard, and reached their climax at the death of her sister, the Duchess D'Albe. Eugenie contended that Fould had interred her sister like a pauper. Fould contended that France had no right to bury the Montijo family in any way, but that the Duchess had been interred like a lady nevertheless. "She ought not to have been buried merely like a lady," returned Eugenie, "but like the sister of the Empress of France."

—The Duke of Hamilton, who is regarded as living a wild life in Paris, is not yet nineteen. He is an elegant looking boy, with fresh peaches and cream sort of complexion, and what was formerly considered a great drawback on his good looks, but is now his chief beauty—red hair. Until the death of his father, some three years ago, he bore the title of the Marquis of Douglas. His mother, the Duchess, was the Princess Marie of Baden, and a cousin of Louis Napoleon. The young Duke is a great pet with the French Emperor, and may often be seen occupying the Imperial *loges* at the different theaters in Paris. The Hamiltons are a Scotch family, and staunch Catholics.

—Rev. Isaac G. Bliss has succeeded in raising the sum of $58,386 for the new bible house at Constantinople. Of this sum, Hon. Wm. E. Dodge and James Brown, Esq., of New York city, gave each $5,000. S. D. Warren, Esq., and six others of Boston, whose names we do not know, gave each $1000, and sixteen other gentlemen of that city gave each $500. The rest was in similar small sums from various quarters. The first amount fixed upon to be raised was $50,000, but it was afterwards thought best to increase this to $60,000.

GENERAL INTELLIGENCE.

The rent paying system is peculiar in China. The lessee pays the owner a capital large enough to pay the rent in its use or interest; at the end of the term the money is returned. At Tien-tsin a house containing six rooms and a court may be rented in this way by paying down a capital of one hundred dollars.

There are more houses and stores to let in Brooklyn, at present, than has been known in three years; so a reliable real estate agent assures me. On every block in Fulton street, there are one or two stores to let, and the same state of things is visible in Myrtle avenue, Atlantic street, and all the other great thoroughfares.

The people of Jamaica are anxious to have the West Indian cable extended to their island. It is also proposed to lay a cable from Cuba to Aspinwall, which would bring Central America within two days of Europe, Valparaiso within eighteen, and New Zealand within twenty-seven days.

The number of emigrants which arrived at Castle Garden for the week ending Wednesday, September 4, was 3,892. For the month of August the number was 20,835. During the year ending September 1, the number was 171,962, against 170,099 for the year ending September 1, 1866, showing a gain of 1,863 for the present year.

The Empress Charlotte.

It is with much satisfaction that we hear that the unfortunate ex-Empress of Mexico has been placed under the care of that very able and distinguished physician, Dr. Bulkens. The accounts, which, from time to time, have been published in the newspapers, and the private reports which have reached individuals, though fragmentary and incomplete, have conveyed enough information about the treatment to which the Empress was submitted at Miramar to arouse the greatest uneasiness in the minds of English alienist physicians. Solitude, silence, and gloom of every kind seemed to have been her surroundings; while there was too much reason to believe that an absolute system of court etiquette was permitted to interfere with those vigorous measures which must be taken with the melancholic insane in order to insure their being properly supported with the sustaining nutriment that is indispensable for the preparation of the exhausted nervous system. The fact that a priest was one of the guardians appointed to regulate the control of the unhappy patient was ominously suggestive of those dark days of lunacy treatment which in this country are happily now only a tradition of the past—days when it was thought much more important for the attendants of the insane to have rigid theological and metaphysical views about the nature of the mind, than to have any special knowledge of bodily diseases. In Dr. Bulkens we are certain that the Empress will find a medical adviser whose system is the very reverse of all this. Pure fresh air, pleasant converse with friends, and other modes of employing the mind, a generous nutrition, kindly but firmly enforced—such are the remedies which we may be sure the illustrious patient will now receive.—*Lancet*.

From Mexico.

The news from Mexico is to July 20. President Juarez has completed the formation of his new Cabinet. The whole country has been laid off into military districts, to which Regules, Diaz, Escobedo, Corona and Alvarez have been assigned in command. On the 15th of July the President was accorded an informal reception, which was rather an indifferent affair, the people being conspicuously wanting in the usual Mexican enthusiasm, for brilliant pageantries. A youth named Maximilian read a poem dedicated to Juarez, and a little girl named Carlotta presented him with a golden crown. Diaz had had almost a rupture with Juarez on the subject of the expected execution of fourteen more prisoners of war, and it was through his efforts that they were respited. He is reported to have threatened Juarez with the forcible intervention of the army which he commands unless the sentences were suspended. Carlos Miramon has 2,600 men in the mountains, and recently shot ninety liberals in revenge for his brother's death.

IN the course of excavations at the West Dock Works, Hull, England, the navvies have come upon a stratum of dark soil, in which a number of trees in a horizontal position were met with. They are oak, and in excellent condition, and remarkably hard. Besides these interesting remains of a long past age, a large number of acorns and hazel nuts was found, and some oyster and mussel shells. The discovery is the more interesting to geologists, seeing that trees were found at a depth of about nineteen feet below the water line of the river.

A NEW YORK letter of Friday says: The dry goods auctions continue to draw well. A leading house had an attractive sale of hosiery and miscellaneous fabrics this morning. Men's woolen scarfs brought from 23 to 36 cents; ditto woolen comforts, 18 to 25 cents; ladies' merino vests, 60 to 70 cents; men's merino drawers, 52 cents; ditto shirts, 80 cents; men's super real merino ditto, $1 56; men's buck half gauntlets, 50 cents; men's super silk drawers, $2 00, and so on.

GRAND

Presentation Enterprise.

THE COMMITTEE APPOINTED

WILL POSITIVELY DISTRIBUTE THE PRIZES AT THE

THIRD GRAND CONCERT

THAT WILL TAKE PLACE AT

IRVING HALL,

NEW YORK,

Tuesday, Sept. 24th, 1867.

BANKERS' AND MERCHANTS' SECOND GRAND CONCERT was given at Irving Hall, August 24th. It was a grand success. The large hall was filled with the most respectable citizens of New York. The Committee that was appointed at the first Concert, announced to the audience that they would distribute the prizes at the next Concert, which will take place at Irving Hall, on the 24th of September, 1867.

When the Committee made this announcement, the audience gave immense applause. They were pleased to know that the prizes would be distributed at the next Concert on the 24th.

This Grand Distribution of Prizes will be conducted on the

MUTUAL BENEFIT PRINCIPLE.

A PRO RATA DISTRIBUTION OF PROFITS TO TICKET HOLDERS.

CAPITAL, - $1,287,148.

TICKETS ONE DOLLAR EACH,

And limited to One Million Two Hundred and Eighty-seven Thousand One Hundred and Forty-Eight.

THE FAIREST AND MOST IMPARTIAL PLAN OF PRESENTATION YET OFFERED TO THE PUBLIC.

A Prize with Every Tieket.

PROSPECTUS.

A number of the leading Bankers and Merchants of New York, in consideration of the great success which has attended many of the Charitable Presentation Entertainments of the day, have formed themselves into a company, with the view of inaugurating an enterprise which, while it shall return them a fair profit, shall offer greater advantages to ticket-purchasers than any yet presented; and which being conducted upon a perfectly legitimate and business basis, shall be free from those objectionable features which have characterized many of these enterprises.

To this end they have consigned the sale of tickets, and the registering the same, to Clark, Webster & Co., Bankers and Managers, No. 62 Broadway, New York, who will keep the records in their custody until the day of the Grand Presentation Entertainment, when they will be handed over to a committee selected by the audience to make an impartial distribution of presents

A reference to the number of presents and the general plan of distribution, given below, will convince even the most skeptical of the great advantages which will accrue to all who participate in the enterprise; and the Commercial and Financial standing of the Company, and the Managers and Bankers thereof, will, they hope, prove a sufficient guaranty of the fairness and impartiality with which everything in connection with the scheme will be conducted, and strictly watched over and guarded. In fact, it is the desire of the Managers to conduct every transaction for the mutual benefit of whoever shall purchase a ticket, and scrupulously to avoid any and everything which could in the slightest degree diminish the profits which are likely to accrue to all who invest.

HOW LONG!

How long will sufferers from Chronic Diseases fail to avail themselves of the extraordinary virtues of

MISHLER'S HERB BITTERS.

Until this most excellent medicine has been tried all has not been done that could be.

Hark ye sufferers from the scourge of the present generation, Dyspepsia, have you sought relief in

MISHLER'S HERB BITTERS.

No we know you have not, or you would not look so woe-begone and miserable.

How long, oh ye that are suffering from the horrors of Scrofula will ye fail to make use of

MISHLER'S HERB BITTERS.

An almost infallible remedy for this disease in any of its horrible forms. The sick and the afflicted are guilty of self-murder so long as they do not use

MISHLER'S HERB BITTERS.

We say all this with the conviction strong upon us that half the truth has not been told.

CAUTION TO THE PUBLIC.

A few avaricious and unprincipled Flour Dealers in and around Pittsburgh, are now purchasing second-hand sacks, with our brand upon them, filling them with an inferior quality, and selling it as our Flour. Finding it difficult to procure the quantity of second-hand sacks, they are trying to get the sack maker here to make and print a lot for them.

To prevent this fraud, we are now pasting our sacks, and sealing them with a printed label, with name of firm and date of manufacture.

As we keep a register of the Flour made each day, and the kind of Wheat ground, we are at all times enabled to know the quality of Flour made.

Look Out for Short Weights.

Some of the dealers who are filling the sacks, are putting up short weights, in some cases equal to twenty pounds per barrel, making fully one dollar per barrel loss to consumer.

A REWARD OF $50

Will be paid for information that will lead to the detection and conviction of any person engaged in this fraudulent business.

THE MOUNT AUBURN

Young Ladies' Institute,

Situated on beautiful eminence north of the City of Cincinnati, from which it derives its name, has just closed its Twenty-second Session.

The past year has been one of unusual prosperity, there having been in attendance two hundred and thirty-five young ladies, gathered from all parts of the United States. No case of sickness requiring a physician has occurred.

Its healthful location, and its country position, while yet so near the city, gives it advantages over either city or country schools.

Its character as a first rate Seminary of Learning is too well known to need further comments.

The LIBRARY, CABINET AND APPARATUS, already very extensive, are receiving yearly additions.

STATE ITEMS.

Mrs. Henry Light, of Perry township, Jefferson county, was thrown from a horse on the 4th ult., and severely injured.

On the 30th ult., a very wild and ferocious wild cat was shot near New Bethlehem, Clarion county, by two gentlemen. It measured nearly four feet in length, and was twenty-two inches in height.

George Long, a brakeman on the Pennsylvania railroad, met with a singular accident a few days ago, which resulted in his death. While passing from the cars to the engine he was accidentally struck in the abdomen with a poker in the hands of the fireman, and injured so badly that he died in a short time.

An unfortunate accident occured in Wesleyville, Erie county, on Thursday evening. Two young ladies, Miss Lucia Austin and Miss Laura Johnson, who had been for a ride with a couple of gentlemen friends, were left alone in the buggy for a few minutes, when the horses suddenly took fright and ran away, smashing the buggy and throwing both the young ladies out. Miss Austin fell upon her head, receiving injuries which it is feared will prove fatal. Miss Johnson was severely bruised.

Michael Magee, of Rome township, Crawford county, was prostrated by paralysis while walking in a field on Saturday, and was not discovered until a late hour on Sunday morning. His recovery is considered doubtful.

A stabbing affray occurred on Bennehoff Run last Tuesday between W. P. King and William Sawers. No serious injury was sustained by either of the parties.

A little son of Alexander McClintock, of Franklin, Venango county, aged five years, was drowned on Thursday last.

On Monday night last, a sturgeon, measuring six feet four inches in length, and weighing one hundred and one pounds, was caught in Shuman's Basket, at Washington, Columbia county.

Jacob Kempinsky, of the firm of A. & J. Kempinsky, dry goods dealers at Petroleum Center, was arrested at Meadville, on Wednesday, charged with murder. The firm had recently shipped off their stock, and then decamped for parts unknown.

Last week a full set of arms, etc., was issued from the armory in Harrisburg, to a company of Zouaves recently organized in Gettysburg. A few days ago the arms were distributed to the members of the company in that place when one of the Zouaves had a gun assigned him, which, upon examination, was found to be the same he had carried as a private of Co. G, 208th Regiment Pennsylvania Volunteers, in the late war for the Union. Upon the discharge of the Regiment, at the close of the war, he left his gun at Petersburg, Virginia. It now comes back to him refitted and renewed, but with the initials of his name cut on the stock, and retaining the same marks on the lock, which he had put on it while in camp, to identify it there.

Hiram Smethers, of Berwick, Columbia county, had his leg broken on Monday by being thrown from a buggy.

A man named Conrad Hoover, convicted of arson at the August term, and sentenced to an imprisonment of eighteen months, hung himself in his cell in the jail at Reading, on Tuesday morning. Mr. Hoover was about 41 years old. An inquest was held over his body, and a verdict rendered in accordance with the above facts.

Mr. Amos Boyer, of Salem township, Clarion county, was thrown from a wagon and almost instantly killed, on the 29th ult. A small boy was also thrown out at the same time, but escaped with a few slight bruises.

A Mr. Gormley, hotel keeper at Emlenton, Venango county, fell dead from his chair a few days since. His death is supposed to have been caused by apoplexy.

A son of Samuel Shuler, of Harmon, Butler county, while playing in a machine shop, had his hand caught in the machinery, and so badly crushed as to render amputation necessary.

A pair of horses belonging to Mr. John Crawford, of Scrubgrass township, Venango county, were attacked by a swarm of bees, recently, and so badly stung that they both died.

A catamount was killed on Big Buffalo creek, Donegal township, Butler county, a few days since. It was of the pure, ferocious breed, measuring four feet in length, and weighing sixty pounds.

The steam saw mill at Beaver Center, Crawford county, owned by J. W. Wood, was burned to the ground about eleven o'clock on the night of the 5th. The fire is supposed to have caught in the saw dust.

During a sudden squall on Conneaut Lake, on the 5th inst., a sailboat containing James R. Freeland, Esq., of Evansburg, and four ladies, besides the man in charge of the boat, was upset, throwing the entire party into the water near the center of the lake. the boat immediately righted, and by great exertions the two gentlemen succeeded in rescuing the ladies, one or two of them making very narrow escapes from drowning.

On Tuesday last Miss Sarah Stewart, living with Mr. Olmes, in Gaysport, Blair county, burst a blood vessel and fell over dead whilst milking a cow.

Mr. Nathan Bartletts, of Birmingham, Blair county, was seriously injured, on Tuesday of last week, by being thrown from a carriage in the neighborhood of Tyrone.

The second annual fair of the Erie Driving Park Association will occur on Wednesday and Thursday, 18th and 19th inst. $1,275 will be given in premiums. A comic feature in the races will be a dash for mules, the last in to get $25, each to be ridden by the owner of some other mule.

Mrs. Schneidle, a German lady, aged about sixty, was thrown from her horse on Sunday last. Her foot caught in the stirrup, and she was dragged a considerable distance. She had one leg broken, and was severely bruised.

During a thunderstorm on Friday, Mr. Thomas Barnett, foreman of the new elevator in Erie, was struck by lightning and instantly killed. The deceased leaves a wife and three children.

The Atlantic and Great Western Railway have expended on buildings and other improvements in Meadville, the sum of $712,000. It has 600 employees living in Meadville, to whom it pays $40,000 per month. The disbursements of the company for repairs and supplies at Meadville amount to $150,000 per annum.

The friends of temperance are to hold a convention at Sharon, Mercer county, on the 20th inst. Four or five counties will be represented.

William Coxel, of Reading, had his foot badly crushed while trying to jump on a moving freight train on Friday evening.

A boy of fourteen years, named Michael Gerhard, was run over by a coal cart in Reading, on Saturday, and received severe internal injuries.

WESTERN NEWS.

A prize fight is arranged for the 25th of October, between Con. Orem and James Dwyer, for the championship of middle weights. The fight takes place fifteen miles from Virginia City.

General Dodge and General Rawlins, of General Grant's staff, were at Salt Lake on the 29th, and would return to the States within a week.

General Augur, at Fort Sanders, is arranging for quartering his troops during the winter. A number of barracks are being constructed at Omaha, and will be forwarded west by rail.

Sales of tobacco at Louisville for the year ending August 31, 34,884 hogsheads: during August 3,949 hogsheads. Aggregate $529,512. The current opinion of a very short crop, causes firmness and a steady advance.

Mike McCoole, the champion prize fighter, arrived at St. Louis Friday morning, and met with a distinguished ovation at the hands of his fellow citizens. He was met at the depot by a large crowd of people, and an address of welcome was delivered by Mr. J. S. Hay, of the *Evening Dispatch*, to which the champion briefly responded. A procession was then formed, with music, etc., which marched through the principal streets; great enthusiasm being displayed along the route, especially by the Hibernian friends of the pugilist. McCoole's friends and the people generally, here, are very indignant at the manner in which he has been treated by the managers of the prize fight excursion train, who have withheld from him his share of the proceeds, amounting to $3,100. An explanation seems to be demanded. Before leaving Cincinnati for St. Louis, Mike McCoole had a quarrel with his two backers, Gallagher and Dunn. In settling with him they retained one thousand five hundred dollars as an offset to what they lost in backing McCoole against Coburn, four years ago. McCoole departed in a highly indignant frame of mind, and refuses to hold any further communication with his recent backers.

WINES, BRANDIES, &C.

SPEER'S PORT GRAPE WINE,

Used by hundreds of Congregations for Church or Communion Purposes.

ALSO,

EXCELLENT FOR LADIES AND WEAKLY PERSONS.

VINEYARDS, NEW JERSEY.

SPEER'S PORT GRAPE WINE,

FOUR YEARS OLD.

This justly celebrated native Wine is made from the juice of the Oporto Grape, raised in this country. Its invaluable

Tonic and Strengthening Properties

Are unsurpassed by any other native Wine. Being the pure juice of the grape, produced under Mr. Speer's own personal supervision, its purity and genuineness are guaranteed. The youngest child may partake of its generous qualities, and the weakest invalid may use it to advantage. It is particularly beneficial to the aged and debilitated, and suited to the various ailments that afflict the weaker sex. It is, in every respect,

A WINE TO BE RELIED ON.

Invalids use SPEER'S PORT GRAPE WINE. Females use SPEER'S PORT GRAPE WINE. Weakly persons find a benefit by its use. SPEER'S WINES in hospitals are preferred to other wines.

Sold by Druggists and Grocers. A. SPEER'S VINEYARD, New Jersey. Office, 243 BROADWAY, New York. TThs

BRICK MANUFACTURING CO.

This Machine takes the clay direct from the bank, (without the preparation, by soaking, necessary for "soft mud" machines), and tempers it thoroughly, pressing, in steel moulds, brick stiff enough to be packed up eight high in the yard as made. For cutting with the trowel, bearing hard usage, and making a strong, true wall, there are no better brick known. The cost of making them by this machine is from 95 cents to $1 10 per 1,000, according to the rates of wages. This we guarantee. The machine is built entirely of iron and steel; and in the best style for strength and permanent use in working clay. Apply for circulars, giving full information, at the office,

CITY MATTERS.

PERSONAL.—We had the pleasure yesterday of taking by the hand our genial friend, Captain John H. Stewart, who is now on a brief business trip to this city.

THE O'NEILL-PITTOCK LIBEL CASES.—These cases were expected to come up in the Quarter Sessions yesterday, but for some reason or other were not reached. As the Keller murder case is fixed for this morning, the libel case will probably go over for several days.

FINAL COMMITMENT LODGED.—Mayor Morrison, of Allegheny, yesterday lodged a commitment for trial against Blasius Rendall, charged with the murder of Louis Hetzell, by stabbing him with a pair of scissors. The case will probably be called to the attention of the Grand Jury to-day.

FIREMEN'S PARADE.—The members of the new fire organization in Allegheny city—the Ellsworth Hose Company No. 2—made their first appearance yesterday afternoon. About forty-five men, all fully equipped, paraded the principal streets of the two cities, headed by a brass band, and drawing their new and beautifully constructed hose carriage, which was gaily decorated with wreaths. The display was a very creditable one.

SAXONBURG HARVEST HOME.—The Harvest Home at Saxonburg will commence to-day. Through tickets will be issued by the Western Pennsylvania Railroad Company. Walker's Stage Line connects at Freeport with trains on that road, leaving Allegheny at 6:50 A. M. and 1:50 P. M.; returning arrive at 10:10 A. M.; and 6:05 P. M. A number of extra stages have been placed on the route, and persons attending the Home will be well accommodated.

WHO IS HE?—The Wheeling *Register* gives a humorous account of the "doings" of a young Pittsburgher, who claimed to belong to the reportorial staff of the *Chronicle*, and who paid that city a visit last week. He was placed under arrest, by way of a practical joke, but taking the matter in earnest escaped from the "officer," and made some of the tallest running ever witnessed "at the head of navigation." The name of the fleet young man is not given. Who is he?

THE CHARTIERS VALLEY RAILROAD.—Those who are interested in this important link in our railroad connections will regret to learn that there is no immediate prospect of the completion of the line. Rumor has it that the parties who were expected to have completed the work at an early day, have again postponed the matter for another year. The estimate lately made of the cost for finishing that part of the road between Mansfield and Canonsburg, is said to foot up $600,000. We are not advised as to the cause of the postponement.

ACCIDENT IN EAST BIRMINGHAM.—On Saturday, the sides of the new sewer being built on Sarah street, East Birmingham, suddenly caved in, partially burying one of the workmen. When taken out it was found that his nose had been badly broken, and he also sustained several other slight injuries. While two workmen were engaged extricating the above man, another caving in occurred. The weight of the sand falling upon them, sprained the leg of one and the ankle of the other. The caving in was caused by the late rains.

Another New Smoking Car.

A few weeks ago we noticed the placing of a new smoking and baggage car on the Wall's Accommodation train of the Pennsylvania Railroad, of which Captain Kirkpatrick is conductor. Yesterday another and more improved one was added to Captain John Routh's train. The car was built under the superintendence of Mr. R. M. Ramsey, foreman of the car shops, and is creditable in its design and workmanship. The bed rests on the improved wooden truck of the company, with French's elliptic springs, the best now in use, and which are being applied to all the passenger cars on the Pennsylvania Railroad. This new car has one end assigned to baggage, under the care of Mr. John Hugo, and has more room for baggage than the car on the other train. The seats for passengers are arranged along the sides, are finely cushioned, and will seat forty-five persons comfortably. The other officers of this train are Fred. Flade, engineer; Samuel McIntyre, fireman, and Messers James Clavey and B. F. Valentine, brakemen. The new accommodations for "smokers" will be duly appreciated by the patrons of the train.

Outrages near Wilkinsburg.

On Saturday night a series of outrages were perpetrated at Edgewood station, half a mile west of Wilkinsburg, which call for severe punishment. It seems that a party of roughs, who had been out in the direction of Swissvale, started for home between ten and eleven o'clock, full of bad whisky and evil motives. On reaching the residence of Dr. J. S. King, they entered his premises, tramped around his house and garden, and wound up by tearing down a portion of his fence. In passing the next house, on the opposite side of the road, occupied by Mr. Anderson, they hurled a large stone at one of the upper windows, and came within an ace of sending it crashing through the glass. They next stopped in front of the residence of Mr. John Grazier, and after vainly endeavoring to tear down a portion of a new and expensive fence which he has recently erected, deliberately took a heavy stone and broke a number of the palings. Not satisfied with this, they lifted his gate off the hinges and carried it a distance of several hundred yards, throwing it down over a steep embankment near the line of Judge Hampton's property, and damaging it badly. The rowdies then visited Wilkinsburg, and wound up by an attack on the fence of Mr. Valentine. It is not known who the guilty parties are, but no efforts should be spared to ferret them out and make them feel the penalty of the law. There is a party of young rowdies in this vicinity who have been setting the law at defiance, and it is high time that the authorities should make an example of some of them.

The Death of Hugh Stewart--Conclusion of the Inquest.

We have already reported the facts connected with the death of Hugh Stewart, a carpenter employed in tearing down and remodeling the old mill of Messrs. Graff, Bennett & Co., at Girty's Run. The accident happened on Friday last. The inquest was concluded last evening, at the Mayor's office, in Allegheny, by Coroner Clawson. Messrs. John Heckert, G. W. Kirby, Wm. Galbreath and John B. McClure, who were employed on the building, were examined as witnesses, and testified to the nature of the accident. The men had been engaged in sawing off and removing the purlines, which supported the principal rafters. One end of a purline had been sawed through, and the weight had caused it to fall some ten inches at the sawed end. Notwithstanding this fact, Mr. Stewart, who was at the other end, attempted to cross over the severed timber, which was suspended at an elevation of over thirty-five feet. When he had walked along about six feet, it gave way. He caught hold of the falling beam, and as soon as the end on which he stood got free from the mortise, his weight took it rapidly down as he went, crashing with it to the floor below. Both wrists were broken and his skull was frightfully fractured, causing death in a few minutes. It is a singular feature of this accident that the deceased had been in the habit of walking a twelve inch plank put up for that purpose, and had no occasion whatever to risk his life in this reckless manner. He had also been warned not to attempt to walk the purlines. The jury found a verdict of accidental death.

POLICE INTELLIGENCE.

[Before Alderman Donaldson.]

LARCENY OF MELONS.

Two young men named John Weaver and Thomas Aiken, the former residing at Woods' Run and the latter on Chartiers Creek, were before this Alderman yesterday, an information for larceny having been lodged against them by Mr. Henry Bruce, who resides near McKee's Rocks. Mr. Bruce alleges that on the night of the 22d ult. the defendants stole from his premises two baskets of melons, and also destroyed a quantity of fruit, which he had prepared to bring to market the following morning. Deponent also states that on Friday night last two baskets of peaches were stolen from him, and he verily believes that the same parties also committed this theft. The accused were arrested and committed to jail in default of bail, for a hearing to-morrow. They subsequently procured bail and were released.

WIFE VS. HUSBAND.

Clara Gray appeared and instituted suit against her husband, James Gray, charging him with assault and battery. The accused was arrested and committed to jail for a hearing, in default of two hundred dollars bail. The matter, however, was subsequently amicably settled, and James was released from custody.

[Before Alderman Mullin, of Allegheny.]

ASSAULT AND BATTERY CASES.

John Scott, of this city, yesterday lodged complaint against one Wm. Steel for assault and battery. The parties are employed at Graff's Shovel Factory, in Allegheny, and a dispute occurring between them on the 5th inst., a quarrel ensued, which resulted, it is alleged, in Steel striking Scott a violent blow in the face, thereby knocking him down. The defendant was arrested, but the case was amicably settled. A man named Bonner was charged with committing an assault and battery upon John Kerr, by striking him on the mouth with his fist. The alleged assault took place on Federal street, Allegheny, on the 5th inst. A warrant was issued for the arrest of the accused.

[Before Alderman McMasters.]

LARCENY AS BAILEE.

Mrs. Annie Chalfant made an information yesterday against Mary Sullivan, charging her with larceny as bailee of household goods to the value of one hundred and fourteen dollars. Deponent alleges that on the 1st of August she stored the goods in the defendant's house for safe keeping, and that when she called to get them a few days ago, the defendant had them in use, and refused to return them to her. A warrant for Mary's arrest was issued.

[Before Alderman Strain.]

ABANDONMENT.

Mrs. India Ollney yesterday instituted suit against her husband, Silas B. Ollney, charging him with abandonment. Mrs. Ollney states that she was married to Silas about two years ago, and that for over a year past he has neglected and refused to provide for the support of herself and child. Silas was arrested, and in default of three hundred dollars bail was committed to jail for trial.

KNOCKED HIM DOWN.

James Miller was arrested, charged with committing an assault and battery on Daniel McGovern in knocking him down and otherwise abusing him. He was held to bail for trial.

[Before Alderman Taylor.]

ASSAULTED HIM.

Wm. Irwin was charged yesterday with committing an assault and battery upon Joseph Hartley, in striking him on the mouth with his fist. The alleged assault took place on Penn street. A warrant for the arrest of the accused was issued.

SURETY CASE.

Albert Satter charged Frederick Beckman, of the Ninth ward, with surety of the peace. The case was held for a hearing.

[Before Justice Ammon, of East Birmingham.]

RELEASED ON BAIL.

Andrew Dorley, who was committed to jail on Saturday on a charge of assault and battery preferred by his wife, was released yesterday on bail.

County Executive Committee—Public Meetings.

The Republican Executive Committee held a meeting yesterday forenoon, at the office of Alderman Sutherland. Considerable business of a private nature was transacted. It was arranged to hold a grand mass meeting at the Monongahela House, on Thursday evening next, which will be addressed by Major Russell Errett, our candidate for State Senator, and others. Meetings were also appointed for Friday night, at the Market House in Birmingham, and at the School House in the Ninth ward. Good speakers will be in attendance. Let there be a large attendance. The campaign will be short—let it also be vigorous and effective.

The Outrages at the Grain Elevator.

The series of daring assaults and highway robberies lately perpetrated in the immediate vicinity of the grain elevator, demands that a special policeman be placed at that point. We hope Mayor McCarthy will give this matter his immediate attention. If he has not an officer to spare for that special duty, the police committee should authorize the employment of an additional member. All idlers should be kept away from that place, which is now one of the most dangerous in the city. It is a matter of surprise to many that the numerous assaults occurring here have not long ago called forth official action.

The Dry Goods Trade in Pittsburgh.

Many people will recommend you to their personal friends to make your purchases, and tell you that you can obtain the most advantageous bargains if you follow their advice. The reason is very obvious, and the buyer is almost invariably disappointed, both in price and the quality of the goods offered to him. A far safer and more satisfactory course to pursue is to seek out the best firms through a legitimate channel, and one of such we consider to be the COMMERCIAL, which is a recognized organ of the mercantile and business men, generally, in Pittsburgh. We certainly have no hesitation in recommending our readers to such business houses as we know to be first-class establishments, and where we are convinced that they can buy their goods at a decided advantage, and we regard this not only a duty on our part, whenever our advice is requested, but we esteem it a pleasure, also, and we regard, for instance, in the wholesale and retail dry goods business, the well-known house of Messrs. J. W. Barker & Co., No. 59 Market street, as being eminently a leading representative concern in that line of trade in this part of the country, and especially worthy of our notice. It is our wonder that in this connection the firm of Barker & Co. occurred to our mind almost intuitively, for certainly its history furnishes the very best illustration of the superiority of the advantages it offers to buyers, some of which we will particularize, and first, as the expense of buying and selling, rent, clerk hire, etc., are always added to the invoice cost of goods, all things else being equal, it stands to reason that that house can sell the cheapest, which divides the expense between the *wholesale and retail branches of the trade*, and exactly such a house as this is that of Messrs. Barker & Co. Now, here we may at once observe one of the several advantages in favor of the patrons of this house, which are of material importance, especially, in times like the present. Another point upon which we lay particular stress is, that such a house, combining the wholesale and retail trade, does of necessity always keep a better stock of goods—larger, more complete in assortments, etc.,—and it is an advantage which will not fail to be appreciated that here the buyer can be accommodated, not only *by the piece*, but in *cut pieces* of goods, single *dress patterns*, or "*dress lengths*," as our merchants technically term them: and this is done, of course, without putting the firm to any inconvenience or spoiling any piece of goods. No jobbing house can compete with the combined wholesale and retail house in this particular, and it is a fact that the frequent purchases by merchants of "dress lengths," has enabled Messrs. Barker & Co., and so it does all houses of a similar character, to perfectly understand what are the precise demands of the retail trade in the localities from which these merchants come, and such a house is always equally well posted in regard to the retail trade of the city in which it is located. That these are important advantages to the buyer and seller, we think, cannot be doubted for a moment by any one who pretends to a knowledge of the dry goods trade, and when we consider that the Messrs. Barker & Co., have added another feature of importance, equal to all these combined, the universal popularity of this house will surprise no one. We refer now to their Eastern purchasing department, at the head of which is the senior member of the firm, who, believing that goods well bought are already half sold, is giving it the benefit of his rare experience and personal supervision. Being ably assisted, and always in the right place at the right time, they do and will sell at the very lowest Eastern cash prices. To the buyer at retail we would say that all the advantages to which we have referred, belong to the retail branch as well as the wholesale, and with the addition of the jobbers' discount, which is sometimes so great as to enable this firm to sell at prices which frequently startle our community. This firm is making huge preparations for the Fall campaign, both wholesale and retail. They commenced the season on Monday, and will keep throughout the season a full stock, crowding their mammoth establishment to its utmost limit. As we are satisfied that we can render our friends no better service, we advise them all, merchants and retail buyers, to visit this establishment always before buying.

The New Theory for Diseases of the Air Passages.

A WORD FROM AN OLD SCHOOL PHYSICIAN AS TO ITS MERITS.

There are many systems of medicine by which we attempt to heal the human body and make it free of disease, ranging from the science of Allopathy down to that of Hydropathy. How far they have succeeded time has abundantly shown, by the number of their failures, as well as the number and nature of their cures.

In the cure of Pulmonary disease, Dr. Aborn has stepped out of the old beaten track, and adopted a system so simple, direct and natural, as to recommend itself to all who are suffering with catarrh and disease of the lungs, of a character defying cure by any of the old methods of treatment.

Although from childhood I have been raised and also went through a regular course and graduated as an Allopathist, yet a strict love of what is right and best, as well as personal benefit received by the new system of atomization teaches me to bear some testimony to its merits for the benefit of suffering humanity.

A. FALCONER, M. D.,
Practical Apothecary, Lawrenceville.

A COUNTRY HOME AT AUCTION.—On Saturday, September 14th, at 11 o'clock, on the premises, will be sold 8 acres of ground, situate in the borough of Belleview, on the New Brighton Turnpike, within six minutes walk of Nevelle Station, P., Ft. W. & C. R. R., and only 40 minutes drive from St. Clair Street Suspension Bridge. Improvements, all that could be desired. Terms easy. See advertisement of Smithson, Palmer & Co., Auctioneers.

THE UNIVERSAL WASHING COMPOUND.—This is a new preparation which will speedily find its way into every family in the community because it possesses the rare merit of being and doing just what is claimed for it, viz: With it you can save at least from three to five hours labor on the washboard, besides money, time and fuel. For fine paints it is invaluable, because it cleans them easily, and makes them brighter. It is also useful for scrubbing floors, washing dishes, &c. It is warranted to contain no lime, or other injurious article. For sale by Grocers and Druggists generally, and wholesale and retail at our office and salesroom, No. 59 Fourth street. George R. Slater & Co.

MILLINERY GOODS—ELEGANT DISPLAY.—By referring to our advertising columns the reader will observe the regular fall advertisement of Messrs. Affelder & Co., of Market street, the well known experienced and popular dealers in millinery goods. We trust that all who are desirous of buying to advantage in this line will not fail to visit Affelder's before making any purchases elsewhere.

$30 Reward

If the Indian Herb Doctor, 196 Liberty street, Pittsburgh, Pa., fails to detect disease and locate its seat without asking his patient a question. Ye suffering, weak and afflicted, nature's garden has a balm for thee.

OUR MOTTO.

We use such Balms as have no strife
With Nature or the Laws of Life;
With blood our hand we never stain,
Nor poison men to ease their pain.

Our Father, whom all goodness fills,
Provides the means to cure all ills;
The simple herbs beneath our feet,
Well used, relieve our pains complete.

A simple Herb, a simple Flower,
Culled from the dewy lea—
These shall speak in touching power,
Of change and health to thee.

LOTS! LOTS! LOTS! LOTS! HOUSES!—A Leggate, Auctioneer, will sell on Thursday next, at 10 o'clock, 20 building lots and one house at Jack's Run Station, on the Pittsburgh, Fort Wayne and Chicago Railroad, three miles from town. They run from 50 by 150 to 1½ acres. Plans at the Auction House, 159 Federal street, Allegheny. Also, on Saturday next, at 10 o'clock, the lot No. 22 Goodrich street, near Railroad Bridge, Allegheny, with a brick house of seven, and a frame, of four rooms. Also, on Saturday next, at 2 o'clock, the most valuable and desirable vacant lot on the North Common, Allegheny, situated 60 feet west of the Theological Seminary, measuring 60 feet on North Avenue, and 170 feet deep. Mr. Leggate invites special attention to these highly attractive sales.

Another Remarkable and Speedy Recovery.

The following additional testimony to the efficacy of Dr. Aborn's treatment has been handed us for publication:

I have been afflicted with an affection of the throat and chest and pain in the side, accompanied by a constant cough, for eighteen months. My friends believed that I had the consumption, and acting upon the advice of one of them I applied to Dr. Aborn three weeks ago, and placed myself under his care. I gradually grew better, and am to-day quite restored to health and vigor. The cure has been a remarkable one, and I take pleasure in recommending other sufferers to call at once upon Dr. Aborn.

THOMAS S. SPEAKMAN,
Lock No. 1, Monongahela River.

From Esquire A. B. Stevenson, Magistrate at Birmingham.

To the Public.—I certify that I had been severely afflicted for years with Catarrh of the Head, Bronchitis, Heaviness in the Chest, and Impaired Hearing. In this deplorable state I was providentially induced to apply to Dr. Aborn, at 134 Smithfield street. In ten days after commencing his treatment, I am most happy to acknowledge that I have almost *entirely recovered* from every symptom from which I had so long suffered. My hearing also is almost *entirely restored* to its original acuteness as the fruit of his skilled and scientific treatment.

Highly Successful Test of Dr. H. W. C. Tweddles New Process of Manufacturing Illuminating Oil.

Dr. Herbert W. C. Tweddle's new process of manufacturing illuminating oils from Petroleum, without the use of chemicals or alkalies, and solely by the adaptation of steam, was thoroughly tested yesterday afternoon at Dr. Tweddle's new "Eclipse Oil Works," at Sharpsburg Bridge, and in the presence of a number of gentlemen who are engaged in the business of refining oil. The section of the apparatus now completed, was put into operation at two o'clock, when the crude oil from the store tank was turned on, and in precisely *four minutes* it began running into the receiving tank pure, refined, white, non-explosive illuminating oil, and at the expiration of just seven minutes, the refined oil flowed *copiously* into the tank. The crude oil used was guaged previous to being refined, in the presence of the gentlemen who were on the ground, and at six o'clock P. M., the oil had all been refined and the test was found to be a fraction over *seventy per cent.* The process of refining was closely watched by the gentlemen present, and it was found that there was no variation whatever in the average product per hour. Everyone present expressed himself entirely convinced of the superiority of Dr. Tweddle's process over that now in use, and the latter is exceedingly dangerous as well as very expensive and irksome. The spectators availed themselves of the opportunity to make this test complete in every detail, and the result was entirely satisfactory to them, and fully demonstrated all that Dr. Tweddle has claimed. Had the whole apparatus been in operation the test would have been far greater. We are not able to lay before our readers the certificate that the test was all we have stated, because we were not able to obtain it up to the hour when we returned to the city, but we shall give it a place in these columns to-morrow morning. Dr. Tweddle's process is now demonstrated by practical tests, concerning every detail in the manufacture of illuminating oils, to be the safest, cheapest, cleanest and most profitable, and we confidently predict that its general adoption by oil refiners will not now be delayed a great deal longer.

PARODY.—The following is so *cute* that we cannot resist its publication, being accompanied by a Mr. Greenback, our particular friend. *All the papers please copy.* To Wheeler & Wilson, S. M. Co.,

All *alone*, are you exulting,
At your great gold medal sin,
In the triumph of your sewing,
Alias, *Buttonhole Machine.*

We, America's own women,
Have each too much of pride,
And say for W. & W., Sewing Machine,
We never, *never*, have so lied.

First, *You*, not your glorious country,
Have stole your laurel from the *Howe*,
And because you cannot keep the prize,
Have kicked up a foolish row.

(The mongrel of this verse is so bad that we cannot parody it.)

Onward, then, ye malfactors
With your industry and skill,
Never resting on *old* falsehoods,
But supplying *millions* still.
Not in present years this medal
Shall make you rave and whine,
But your pride shall be by it,
Blasted in all coming time.
A Million Ladies
For the Howe,
The only Gold Medal Machine.

Sewing Machine Awards.

At the head of Sewing Machine awards in the official list at the Paris Exposition stands:

GOLD MEDAL.

Wheeler & Wilson, New York; Sewing Machine, Button-hole Machine. Next come thirteen awards of *silver medals* to various companies; then twenty-two awards of bronze medals, and twenty honorable mentions.

Finally comes under the head of "*co-operators*,"

"Gold Medal, E. Howe, Jr., Promoter of the Sewing Machine."

This last award had no reference to the Howe Company, *which stood as low as No. 7*, on the jury's list of merits (the Florence stood No. 9, Weed No. 8, A. B. Howe No. 22, Empire No. 36), and had not the slightest chance for the gold medal. It was awarded to Mr. Howe, *personally*. So state Baron Signier, President, and M. d'Allgny, reporter and member of the jury of that class. The French do not even admit Mr. Howe to be the *inventor* of the sewing machine, but claim this honor for M. Thimonier, a Frenchman, who manufactured and sold several hundreds of sewing machines as early as 1835. They simply style Mr. Howe promoter of the sewing machine.—*Ledger.*

Are You Bilious?

Multitudes of both sexes will answer this question in the affirmative; for, next to disorders of the stomach, liver-complaints are perhaps the most prevalent of all internal diseases. Its usual symptoms are a yellowish tinge in the whites of the eyes, especially near the inner corners, an uneasy or slightly painful sensation in the right side, pain between the shoulder blades, sick headache, lassitude, mental dullness, lack of appetite, and irregularity of the bowels. Whoever recognizes this diagnosis as applying to his own condition, may be quite certain that more bile exists in his blood and less passes through his bowels than is expedient for his health, and that his liver requires toning and regulating. One of the special uses of

HOSTETTER'S BITTERS

is to meet just such exigencies as this. Its tonic principle rouses the liver from its torpor, and its aperient element gently relieves the intestinal canal of the accretions consequent upon an insufficient supply of nature's cathartic, the bile.

Persons of bilious habit will find it the best safeguard against the attacks to which they are constitutionally predisposed, and should carefully avoid all the ordinary alcoholic stimulants.

FINANCE AND TRADE.

MONDAY EVENING, Sept. 9, 1867.

The local money market presented considerable activity to-day, and there was an increased demand for loans. Discounts were more general, but rates are about the same which have ruled in our loan market for the past three months.

—Stocks were in more request, particularly bank shares, but prices remain so firm and high that transactions are comparatively few.

—The following statement exhibits the business of the Pittsburgh Clearing House, for the week ending Saturday, September 7th:

	EXCHANGES.	BALANCES.
Sep. 2	$349,373 02	$83,491 05
Sep. 3	273,029 27	84,777 28
Sep. 4	308,241 23	108,253 06
Sep. 5	320,806 56	59,759 89
Sep. 6	231,497 57	32,713 09
Sep. 7	307,525 44	51,686 79
Totals	$1,785,472 08	$420,681 98

—The special advices from the New York market show that governments are off another fraction from the advance established early last week. The report of Messrs. McVay & Co. give the following quotations:

U. S. 6s 1881	111⅝
U. S. 5-20s, 1862	114¼
U. S. 5-20s, 1864	109⅝
U. S. 5-20s, 1865, May and November	111
U. S. 5-20s, 1865, January and July	108⅜
U. S. 10-40s	99¾
December Compounds, 1864	118
August 7-30s	107⅛
June 7-30s	107¼
July 7-30s	107⅛
Gold	143⅝
U. S. 5-20s, 1867	108⅜

—James T. Brady & Co., corner of Fourth and Wood streets, quote United States securities in New York up to noon to-day as follows:

U. S. 6s 1881	111⅞
5-20s, 1862	114¼
" 1864	109⅞
" 1865	111⅛
10-40s	99⅛
5-20s, 1865, (January and July)	108⅛
August 7-30s	107⅛
June 7-30s	107⅜
July 7-30s	107⅛
December Compounds, 1864	117⅞
Gold	143⅜
Silver	137⅛
New 5-20s, '67	108⅜

—The quotations at the Railway stock market from day to day show but slight variations, and there is very little in the sales except by the brokers who appear to be the only parties who give any attention to the general stock list. The following are the noon prices as received by Mr. Bryan:

Michigan Southern	82¼
Cleveland & Pittsburgh Railroad	88¾
Pittsburgh, Fort Wayne & Chicago Railroad	105¾
Erie Railroad	69
Chicago & Northwestern Railroad	48

—The specie shipments last week reached a million, making a total of forty millions since the first of January, against fifty-four millions during the same time last year.

—The New York bank statement to-day, as compared with last week, shows an increase in loans of two and a half millions, an increase in specie of half a million, increase in deposits five millions, and increase in legal tenders of a million and a half.

—Belding, Keith & Co.'s London Circular, under date of August 24th, received at this office to-day, contains much that is interesting. We extract the following paragraphs:

The genial weather, the still increasing plethora of bullion, and the continued purchases by the Government brokers, have imparted further strength to the British funds, which have closed buoyantly at the highest prices of the week. There has been a general absence of business, and the attendance of members has been thin. Prices on the whole, however, have been well maintained. Railway stocks continue comparatively buoyant, and in several cases show a fresh improvement. We look upon this as a very satisfactory feature, as it indicates a return of confidence to a department which has long been unduly depressed and neglected; shunned, in fact, except by speculators. Some fresh attempts have been made to introduce a foreign loan, but they are discountenanced. Colonial securities are mostly firm, the investment inquiry exceeding the supply of stock. Bank shares have improved, and, in a few cases, are steadily rising. There is, however, a very limited demand; the fall having been, to some extent, arrested by the cessation of sales.

The general tone of trade is more cheerful. The trade in manufacturing goods has been exceedingly quiet, and, in the absence of speculation, the operations have been of a legitimate character. A better feeling consequently prevails in most markets. There continues a steady demand for the finer classes of wools. In worsted yarns there is more inquiry on the part of export buyers, but the prices offered are too low to be accepted by spinners. The general demand for the Continent continues below the average amount. The actual business done is small. The fine weather, however, has a favorable influence. The piece trade is quiet. There has of late been a little more doing for America, but all goods for that quarter are for immediate delivery. Only such goods as are actually in stock, or can be made quickly, are consequently taken. Old orders for the autumn trade are running out. The corn trade since last week has been by no means active, and the favorable weather which has prevailed induces great caution on the part of buyers. The wheat crops generally are reported good. The hop fields have improved considerably, and the demand for hops, in consequence, is less active. There is a fair demand for good and choice descriptions of American tobacco, for home trade, at steady prices. Tin plates are still in steady demand.

AMERICAN SECURITIES.—In sympathy with other markets generally, the demand for American Securities has been very quiet, and the price for 5-20 bonds has fluctuated with the cable quotations of the premium on gold in New York. Singular enough, although a great part of the transactions in 5-20's are in the 1865 bonds, this issue is still quoted 1¾ per cent. below those of 1862. We have recently had a great many inquiries for the smaller denominations of these ('65) bonds, particularly for $100, which readily command at the present time a premium of ¼ to ½ per cent., owing to their scarcity on this side. The 1862 are, as yet, the most popular, but this is simply because they have been longer in the market, and are therefore better known. The fact of the '62's being payable three years earlier than the '65's, undoubtedly carries some weight with many holders, but shrewd investors invariably ask for the bonds at the cheaper price, and previous holders have effected an advantageous exchange when there has been a difference of as much as 2 per cent. in prices.

—S. S. Bryan, Broker in bonds, stocks and real estate, Apollo Building, Fourth street. Mortgages bought and sold. Orders for the purchase and sale of stocks and bonds executed in New York and Philadelphia at the rates of commission current in those cities.

PITTSBURGH OIL TRADE.

OFFICE OF THE PITTSBURGH COMMERCIAL, TUESDAY, September 10, 1867.

BUSINESS.—The market yesterday was very unsettled. The dispatches received from the East in the early part of the day had a depressing effect on the market. In the afternoon the dispatches appeared more favorable. The Antwerp market was quoted at 52½ francs, being a slight decline from Saturday's quotations. The advantages of the market were evidently on the side of buyers, who will, no doubt, make the most of it.

CRUDE OIL.—The market was active. The sales were large, amounting in the aggregate to 18,700 bbls. Dispatches from Oil City report the market dull, with buyers holding off. No quotations were given. In this market, towards the close, prices gave way for all year delivery, with sales at sellers' option, at 11@11½c, a decline from Saturday's figures of 2@2½c ℔ gallon. Other sales were small, at the outside figures. The operations in crude were as follows. It will be observed that 9,500 bbls was for next year's delivery, March and April.

REFINED OIL.—The market yesterday was unsettled. Prices were not so steep; still the decline was small. Later in the afternoon the market appeared to rally; buyers evidently had gained more confidence. The sales reported were 6,500 bbls, delivered as follows, including 1,500 bbls of standard white, sold late on Saturday evening and not before reported, at 33½c.

Transactions in Refined.

500 bbls S W, Philadelphia, October, 33½c.
500 bbls regular, free on cars on spot, 27½c.

BOSTON.

The market is firmer, says the *Bulletin*, with a good demand for export and consumption, and prices for both crude and refined oil are tending up. With favorable advices from Europe, the demand for bonded lots is quite active, and large shipments are being made in New York and Philadelphia. Holders are inclined to withdraw, and orders can only be filled at an advance on last week's prices.

Free oil is in good demand, both for present use and future delivery. The stocks are being rapidly reduced, and as the crude article is in demand and higher, the increased cost of production, during the balance of the season, must compel permanently higher rates for the manufactured product.

We quote crude petroleum firm at 15@16c ℔ gal in bulk, and nominally 17@18c in barrels. Refined oil is firmer, with sales at 33@37c ℔ gal for bonded lots, as to brand, and 45@48c in cans and cases for shipment to Southern latitudes. Free do is in good demand at 50@55c ℔ gal, for Western and Boston, up to 57c for Downer's Kerosene. Naptha is selling at a range of 16@30c ℔ gal, as to gravity. Residuum is nominal at $2 75@4 25 ℔ bbl.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, MONDAY EVENING, September 9, 1867.

The general markets remain very quiet, and there is an appearance of discouragement among many merchants, owing to the small amount of trade doing. Country merchants are not disposed to purchase more than required to meet the most urgent demands of their customers. Farmers are holding back their grain in anticipation of higher prices, while at the same time they will not buy any article excepting actual necessities, looking for lower prices. And so trade goes on indifferently—some looking for higher prices, whilst others look for lower.

The receipts of some of the leading articles of produce, per river and rail, since our last were as follows: Flour 874 bbls; apples 35 bbls; cheese 84 boxes; corn 626 sacks; wheat 1,243 sacks; barley 1,069 sacks; rye 265 sacks; oats 820 sacks.

We quote as follows which are the wholesale store prices unless otherwise noted:

BUTTER—Sales were made at 24@25c for choice fresh roll.

EGGS—Market poorly supplied, and prices range from 17@19c ℔ dozen as to quality, with a good demand.

APPLES—The receipts have been large and of a better quality. We quote prices ranging from $2 50 @3 50 ℔ bbl.

PEACHES—The receipts have been quite liberal, but previous prices are maintained. We quote at from $1 50@2 50 ℔ box, as to quality.

PLUMS—Sales reported of 79 boxes at $4 00 ℔ bush.

GRAPES—We quote sales of a large number of bxs at 10c ℔ ℔.

POTATOES—Choice Buckeye potatoes are dull of sale at 80@85c ℔ bush, and sweet Jersey at $6 @6 50 ℔ bbl.

BACON, LARD, ETC.—We quote shoulders at 14¼ @14½c; rib sides 16@16½c; clear sides 17¼c; S. C. hams 21½@22c; dried beef 24c; lard 13½c ℔ ℔, and mess pork at $25 ℔ bbl. It will be noticed that there has been another advance in some articles.

BARLEY—Prices nominal at $1 10@1 15 ℔ bushel from first hands.

OATS—Sales reported of 300 bushels from depot at at 53c, and in small lots from store at 55@58c ℔ bushel to dealers.

CORN—Market firm and held in Elevator at $1 15 ℔ bushel.

RYE—Purchased freely by distillers at $1 20 ℔ bushel.

WHEAT—Receipts continue small, but adequate to meet the demand of millers, who are the only purchasers. We quote red winter at $2 05@2 15, with an occasional sale of extra at higher figures, and sales of inferior at lower prices.

FLAXSEED—Sales were made from store at $2 40 ℔ bushel, and sale reported by Head & Metzgar of 27 bushels at $2 35 ℔ bushel.

FLOUR—The flour market to-day was fairly active, more so than for several days past. Prices, however, were unchanged, and we continue to quote choice brands of winter selling readily at $11 25 and spring at $10 00@10 25 ℔ bbl. The receipts are light and hardly adequate to the demand.

Cincinnati Provision Circular.

Within the past week, says the circular of George W. Phillips, Jr., there has been an advance in all articles, coming under the head of provisions, excepting hams, and a large trade, both consumptive and speculative has been done. The certainty of a very short corn crop, and the probabilities of a late opening of a packing season, as well as the probable shortening of crop by continued Eastern shipments of hogs, has had much to do with this advance, together with the general belief that cut meats will all be used up before new can be made, and that for bacon, mess pork will yet have to be smoked to supply the deficiency; in fact, the experiment is now being made, and should it prove profitable, will tend greatly to reduce the stock of mess. The market closes very firm, with a still upward tendency.

MESS PORK—Has attracted considerable attention during the week, and large sales have been made, both for export and speculation, the article being relatively far below any other part of the hog, has given confidence to holders and capitalists, as to its final outcome, and the high price of other articles, has induced operations in this. At the close it is firm at $24 50, cash, for city, holders asking [illegible] more. Sales to-day amount to 5,000 bbls. But little country offering. There is no rump pork in market.

LARD—Has been in active demand all the week, but the difference in views of buyers and sellers has restricted trade. It, however, advanced to 12¾c as a trading figure, and with sales at the close at 12½c, generally held at 13c for city. Keg lard is abundant and but little called for, and could be had at 13½c to 13¾c.

GREASE—Scarce and nominal.

BULK MEATS—Have been in good demand all the week, with large sales to smokers and speculators. At the close the lowest trading prices were 12½c, 14½c, 15½c and 16c, loose, for shoulders, sides, clear rib and clear sides. Hams neglected; 15 to 15½c would be an outside figure.

BACON—Has advanced considerably since my last, closing firm at 14c, 15½c, 17c and 17½c for shoulders, sides, clear rib and clear sides, packed. Hams dull at 17c to 18c for plain, and 21c to 22c for sugar-cured.

BEEF HAMS—Dull at 19c.

PLATE BEEF—$22.

Sunday Live Stock Market.

The transactions in live stock, principally in cattle for city butchering purposes, at one of our stock yards, on Sunday last, were unusually large. A large number of butchers, some of them wearing their Sunday Church clothes, were on hand, and purchased freely, all kinds of stock, extra cattle, scallawags and bulls. The principal inquiry was for second-class steers, light thin cows and heifers. As there was a very large supply of this quality offering, sales were slow, in the early part of the day, but at the close there was a large amount purchased at prices ranging from $2 00@5 50 per hundred. A large number of purchases were made at these figures, as owners [illegible] all the offerings, rather than [illegible] the regular week's sales. The [illegible] sheep were small and prices nominal.

Boston Dry Goods Market.

There has been but little change to note, prices are steady and trade is gradually improving. Western jobbers and buyers are in the market, but are only asking very moderate sized lots in all cases. Jobbers are disposed to meet in a liberal spirit. Cotton goods are steady and nearly all styles in fair demand at previous rates. There is no perceptible tendency, either upward or downward, and those who really want goods pay the current prices without grumbling. Standard brown sheetings selling in small lots, at 17½@18½c; medium and four yard goods 14½@16c. Fine brown cottons are very firm. The stocks have been much reduced of late, by heavy purchases for the New York market and some leading brands are scarce. We quote Exeter and Newmarket As, 14½c; Stark Ms, 15½c; Pepperell Es, 15c; do Os, 15c; Boott, Ss, 16c; do Os, 15½c; do Hs, 12½c; Bedford Rs, 11c; Ilica Pepperell 8-4, 32c; do 4-4, 42½c; do [illegible]. Bleached sheetings and shirtings are in moderate demand and unchanged, with a good assortment of the various grades offering. We quote New York Mills 4-4, 35c; Wamsutta do, 35c; Williamsville do, 28c; Bates do, 24c; Androscoggin do, 22c; Hills do, 21c; James and Bartletts do, 16c; Langdon do, 17c; Bay state do, 16c; Red Bank do, 12½c; Pepperell 10-4, 52½c; do 9-4, 47½c; do 8-4, 37½c; do 6-4, 27½c. Print cloths are lower and dull at 6¾c. Prints are in steady demand at former prices, and some of the choice styles are scarce and producers ask. We quote Merrimack Ws, 15c; do Ds, 15½c; Cocheco Ls, 16c; Pacifics and Spragues, 15½c; American, Dunnels, Allens and Manchesters, 15c. Amoskeag and Wamsuttas, 15c; Arnolds, 12½c. Ginghams are quiet at 18½c for Glasgow and 20c for Lancaster. American delaines of the fall pattern are in active demand at 24c, 2 per cent off.

Other styles of cotton goods are quiet and without much variation. Cotton flannels are relatively dearer and selling at a range of 17½@25c; brown drills 16@18c; corset jeans 12½@20c; cottonades, 25@40c; denims, 12½@30c; shirting stripes, 15½@28c; ticks, 17½@50c.

The market for foreign dress goods is quite active and firm for all choice and desirable styles. The importations have been quite liberal of late, and buyers are afforded a better selection. Some fancies are selling very well; but plain and staple goods are most wanted.

The market for woolen goods continues to improve gradually. Though the sales are mostly in small lots to the country and interior trade, they foot up a fair aggregate. The profits, in some cases, however, are in an inverse ratio to the sales. The margin on any and all styles is very trifling.

Choice new styles of fancy cassimeres are sold well up to production. Fine coatings and cloths, including tricots, beavers, broadcloths and doeskins, are in fair request. The movement in foreign goods is retarded by high prices under the new tariff. Clothiers are not buying much at present. The demand for flannels, knit goods, shawls and sackings, is steadily increasing.

COFFEE, MOLASSES AND SUGARS.

NEW YORK.

Brazil coffee has continued in fair demand, and the current receipts of Rio are being readily taken up. The market is firm at the currency of the early part of the week. The sales are 2902 bags Rio per steamer Havana, in lots at 11¾@13½c; 1541 do per Talisman, 12c in bond; and 1513 do per same, on terms we did not learn. At Baltimore per Clifton, 1021 bags sold at 12¼c, 548, do at 12½c, 729 do at 11c, and 550 do at 15¾c gold, in bond. For other descriptions here the demand is moderate, and we have only to notice 5000 mats Java, regular, at 21c gold.

Molasses—We have to notice a rather quiet but steady market for this article, there being a continued moderate inquiry for home use, without particular change in prices. The sales are 240 hhds and 100 tcs Cuba Muscovado at 48@55c; 225 hhds and 5 tcs Porto Rico 48@65c; 39 hhds mixed Cuba 44c; 31 Barbadoes 55c; 56 Demerara 63@65c 4 mos; 314 hhds and 12 tcs Porto Rico, 337 hhds, 12 tcs, and 10 bbls Barbados and 190 hhds St. Croix on terms not transpired. By auction, 273 bbls Demerara sold at 58@63c, 4 mos.

Sugar—There has continued a steady but moderate demand for raw, for home use, since our last, the market gradually growing weaker, notwithstanding the advance and firmness of the gold premium. Prices in consequence are not sustained, and we shade our quotations of refined Cuba to 11¼@11⅝c for fair, 12@11⅞c for good, the previous prices being supported. We quote as before: Hard, 15½@16¾c; soft white, 15½@15¾c; and yellow, 13¼@15c. Messrs. Stuart have reduced their prices ¼ of a cent ℔ ℔, and now quote their best crushed and granulated, 16½c; ground, 16⅛c; white A, 15⅛c; and yellow C, 15c cash. The sales of raw are 1,752 hhds Cuba at 11 @12c; 271 Porto Rico, 11½@13¼c; 21 Barbadoes, 11¾ @12½c; 40 St. Croix, 12¼c; 250 Martinique, 11½c; 4,860 bxs Havana, 10½@14½c, 4 mos.; and 100 hhds clarified Demerara, on private terms.

FRUIT.

NEW YORK.

From the *Commercial List*, we take the following: Prices of Malaga Raisins have broken down 10@15c, but, with free sales relieving the pressure, the market closes with more steadiness. Currants have again moved freely, as the opening prices on the other side are pretty high, and the current low rates here promising a margin for profit on the importations of the new crop. Trade generally, however, is fitful and unsatisfactory, both importers and dealers in turn frequently losing money, especially since the steady upward turn of the gold market. The sales include 5,000 bxs layer raisins at $4 85@4 90, mostly $4 85@4 90, which may be called the closing rates; 1,000 half do, part $1 80@1 85; 1,000 qr do, private terms; 2,250@2,500 bbls currants, part in a small way, at 11½c; 250 bags African pea nuts, $4 25; 225 cases sardines, half bxs, part 18c, and 475 do qr bxs, part 18½@19c; 5 casks Turkey prunes, 22½c; 50 bags Tarragona almonds, 31c; 100 bxs. Valencia shelled do; 300 bags Brazil nuts, 40,000 San Blas cocoa nuts, 200 bags French walnuts, 100 bxs. shelled almonds, 50 French plums, 50 bags filberts, and 60 do E I Tapioca, on terms not made public. A small lot new crop Havana oranges (bbls) per steamer, sold at $8 ℔ bbl; 12 bbls limes, $8; 4000 Havana pines, $15 ℔ C, and 20 bbls green ginger, 15c ℔ bbl; Malaga lemons, $8 50@9; Messina $12 and Menton $13 ℔ box. The quantity of peaches received has been larger than last noted, amounting to 125,000 baskets since our last, all of which has been disposed of as received, at prices ranging from 70c to $2 ℔ bsk. Apples are in small supply and steady at $3 50 @4 50 for river, and $3 50@4 for western; golden sweet $2 50@3 ℔ bbl. There is no change to note in the market for domestic dried fruit; we quote new southern dried apples, 5½@6c; western do 7@8c; State do 8@9c; pared peaches 15@16c; unpared do 7@9c; pitted cherries 28@29c; and blackberries 30@31c, cash.

IRON.

NEW YORK.

From the *Iron Age* report we learn that trade is more active and prices are generally tending to advance in some metals, and in others advances are considered certain. The tone of the market is very strong, and a fair business is confidently looked for during the remainder of the season. Stocks are very light. Pig iron very scarce. In manufactures of metals the stocks are made only to supply the current demand; even with only a fair autumn trade there will be much difficulty in obtaining manufactured goods later in the season. Coast freights and freights to the interior are certain to be much higher next month.

Ingot Copper—Holders are at 25¾@25½c for whole lots of Detroit and Portage lake.

Pig Iron—Has been active at $43@45 for the best brands of No. 1, extra; in No. 2 extra the sales have been large at $39 50@40; and prices of favorite brands are now at $41@42. In No. 2 iron the sales have been considerable, resulting in an advance for the well known brands, which are now held at $36@42 for grey forge irons.

Lead—With some sales at 6½@6⅝c, gold, is firm; store lots at 9¼@9½c.

Spelter—Has sold freely at 6½@6⅝c, gold, whole lots; store lots at 9½@9¾c.

Tin—With advances in Europe is now held at 25c, gold, for straits, and 23½@24c, gold, English; demand moderate.

Tin Plates—[illegible]c, gold, for IC charcoal; demand fair and prices stiff.

Bar Iron—Dull at $85 00@90 00 for whole lots refined; $80 00 for common; store lots $10 00 higher.

Rails—The mills are moderately supplied with orders; there are many rail orders in market for the companies' paper with bond collateral. But most mills are well filled with cash, and decline transactions except for cash or negotiable paper; prices are at $80 00@85 00 cash at mills; street rails, $87 00@95 00 at shipping ports.

Wrought Scrap—Dull at $50 00 cash for yard lots selected.

Old Rails—Scarce at $46 00@47 00 cash.

Scotch Pig Iron—Moderate demand with small stocks here at $43 00@45 00 from yard, and $41 50@44 00 ex-ship and to arrive. Freights have advanced in Scotland and Liverpool 5s to 10s sterling ℔ ton, and the cost of laying down pig iron in New York is now put up to $44 00@47 00, currency.

BOSTON.

The market for pig iron, we learn from the *Bulletin*, is firm and unchanged, with only a moderate demand. The supply of foreign is ample for present wants, but is not likely to be increased at the present rates of gold and upward tendency of freight at this season of the year. The domestic article is in light stock, and the better grades sold ahead of production. The requirements of consumption, though at present quite limited, are gradually on the increase, and hence holders are not disposed to make any material concession in order to effect sales.

Manufactured iron, of nearly all descriptions, is quiet, though some kinds of seasonable hardware exhibit a little improvement.

Scotch pig is quiet, with sales of No. 1, in small lots from store at $43@47 ℔ ton for the various brands, as to quality. American is firm and scarce, with sales of retail lots at $45@47 50 ℔ ton, for the different numbers. Charcoal pig is selling at $50@60 ℔ ton, as to brand. Bar iron is quiet but firmer, with sales English and American, from store, at $90@95 ℔ ton for common, and $100@105 for refined. Railroad iron is firm at $52@54 ℔ ton, gold, for English, and $80@83 currency, for American. Steel do are held at $120 ℔ ton gold. Anchors are selling at 8½@9c ℔ ℔; chain cables (⅝@2 inches thick) 8½@9c ℔ ℔; coil chains (⅝@1¼ inches thick) 13½@15c ℔ ℔. Boiler plates are selling at 7½c for flanges, 5½c for C No. 1, and 5½c ℔ ℔ for common and tank. Russia sheet is firm, with sales at 14c gold; and 19@20c currency. English and American zinc are selling at 9½@10c ℔ ℔. Nails are selling at 5½@5¾c ℔ ℔ for assorted sizes. Old iron is selling at $1 60@1 70 ℔ 100 ℔s for cast, and $2@2 12½c for scrap.

IRONTON, OHIO.

The *Register* says there are but few transactions in metal happening. No. 2 mill iron is held at $43 00@45 00; No. 1 foundry at $46 00@48 00. There is no disposition to sell below these figures, though some lots of mill have been offered at $42 00. Cold blast is held at $60 00. The Lawrence rolling mill has commenced operations, but full work will not be done until next week. The time for starting the Ironton rolling mill has not been agreed on, but it is thought that operations will not be long delayed. Market is dull at 4½c for flat, round and square. The number of tons of bar shipped last month was 542. Nails are active at $6 00 for 10d. Orders take up the full production—about 2,000 kegs per week. The hoe factory commenced manufacturing hoes last Tuesday. They will be ready to fill orders in the course of a week. The Ironton foundry are shipping heavily every day. The good repute of their wares through the west gives them continuous demand. Mr. Wm. Lambert has purchased the machine shops of Clark, Ricker & Co. This institution has been gaining vastly in the last few years, and we are glad to learn it has all it can do.

PHILADELPHIA.

Foundry iron is in fair demand; small sales at $44 00 for No. 1; $39 00@40 00 for No. 2, and $35 00@38 00 for forge. Scotch pig is quoted at $42 00@45 00 ℔ ton. Blooms continue dull. Manufactured iron is firmly held.

HARDWARE.

NEW YORK.

From the *Commercial List*, of Saturday, we learn that there is some improvement in business prospects, though there has been no radical change, either in prices or demand. Some houses are doing considerable trade, and there is an appearance of more activity generally, though buyers still operate with much caution, and the business is made up of numerous small bills—there are some buyers here from the West and South, and some demand from Spanish houses for shipment to West Indies, &c. We notice a considerable order for Seymour's Tailors Shears for Berlin, Prussia. The American Flask and Cap Co.'s goods are quite active—their Measuring Tapes are now sold at List, a reduction of 10 per cent. The Manufacturers of Timmens' Tools and Machines, have formed a strong combination, and fixed the price at 20 per cent. advance on List, less 10 per cent. to jobbers, each member of the combination being required to make oath every month, that he has not undersold the fixed price. Saddlery Shelf goods continue very dull, but Horse Woolens are more active than they have been in a long time before—prices for these are 20 per cent. lower than last year. Plumbers Iron Pipes are steady at 30 per cent. off List. Locks, Levels, &c., are in fair demand. Table Cutlery continues active at quotations. Tin Furnishing goods are quite brisk at old rates. Brass goods are a little more active. For Foreign goods there has also been more inquiry, at former rates. The stock of English Screws is much reduced—we quote cask assortments, 45 per cent. off and Shelf goods 40, and 2½ off—American List. Butchers' goods are steady.

RICE.

The New York market is reported dull, and sales unimportant. About 1,000 bags fair Rangoon, received coastwise brought $8 25@8 37½; 600 do good, $9 00@9 12½; 650 do, in bond, $3 62½ gold; and 20 tcs prime Carolina, $12 50, cash.

Messrs. Dan. Talmage & Co., in their Circular of 4th inst., speaking of the coming crop of new Carolina, &c, says: "By the best advices we are led to believe the yield of Southern rice will be largely increased this season. Last crop now closed shows 27,300 tcs. The estimate on the new 40,000 to 45,000 the most sanguine say it will not reach 50,000 tcs. If we give our opinion we would say it cannot exceed 45,000 tcs in all. A good percentage will be kept at the South for its own use. The harvest has begun on the extreme South, although on account of bad weather the planter has not been favored in curing his crop, but we have not yet heard of a single instance of unusual loss. So far the rice birds have not been destructive. However all the districts cannot be deemed free from danger until after the middle of the month. The culture this year has been made with greater care than for the past two years. Some forced lots will be milled at Savannah by the 20th of this month, and will find their way here by the 1st of October. By the middle of October the supply will become regular, and by 1st of November will, in the main, meet the wants of the United States for some months to come. The East India, which comes here for market, will likely be exported to the Cuban and other foreign ports."

Hat Trade.

The state of the wholesale hat trade continues in an improved condition. At an auction sale of 300 cases at the warehouse of James H. Prentice, in Brooklyn, on Friday last, the following prices obtained were rather better than at any previous sale of the season. The sales were all per dozen by the case, for net cash within seven days: Wool hats, men's plain $7 00@11 75; men's fancy, $9 50@17 75; youths' fancy, $8 75@10 50; boys' plain, $7 50@8 25; children's plain, $4 00@6 25; children's fancy, $9 50 @10 12. Casimere, men's plain, $15@27; men's fancy, $[illegible]; black beaver and belly nutria, $30 25@37 50; black, brown and otter brush, $44 25@48 50.

CINCINNATI, September 9.—Flour in fair demand at full prices; family $10 00@10 50. Wheat firm at $2 15 for No. 1. Corn in fair demand and market firmer, closing at $1 05. Oats firm at 60c, and holders ask higher prices at the close. Rye unchanged and steady at $1 25. Barley firm, and prime to choice fall are in demand at $1 25@1 30. Cotton dull and prices are nominal. Whisky generally held at 34@35c, in bond, but there has been no sales at better than 33c. Provisions were buoyant and unsettled; mess pork held at $25 00; sales of 1,200 bbls were made at this rate, buyer 30 days; it could have been bought to a limited extent at $24 75 cash. Bulk meats generally held at 13@15c, and not much offering even at these rates, being above the views of buyers or limits of orders. There was nothing done in bacon; held at 15c for shoulders, 17½@17¾c for clear rib and 18@18½c for clear sides, with sales at the inside rate. Lard was offered sparingly at 13c at the close. Hams in better demand at 21@22c for sugar cured. Butter and cheese firm and supply light. Linseed oil dull at $1 25; the decline in New York has turned shipments to this market, which had been destined for New York. Sugar firm at 12@15c for raw. Coffee in fair demand at 22@27c for Rio; the latter rate for choice. Gold 143 buying. The drought continues unabated, and the accounts from the interior regarding corn and other late crops continue very discouraging.

New York Cattle Market.

NEW YORK, September 9.—Beeves—Better grades are in light supply and wanted, and generally commanded full prices. The lower grades were freely offered and much lower. About all the offerings, which comprised 2,100 head, were disposed of; extras 16½@17c; prime 15½@16c; first quality 15@15¼c; fair to good 14@14½c; ordinary 11@13½c and inferior 8@10 cents.

Sheep quiet and steady with a moderate supply and fair demand. Lambs scarce, in good demand and higher; extra sheep 5½@6c; prime 5½@5¾c; inferior to common 4@5c; extra lambs 8½@9c; inferior to good 6½@8c.

The hog market ruled steady up to Thursday, when holders were compelled to submit to a reduction; since then the demand has been slow and prices favored buyers. To-day the offerings were large; 40 car loads were disposed of with difficulty at $7@7 50 for corn fed. Receipts—6,588 beeves, 29,352 sheep and lambs, 22,283 hogs.

LOUISVILLE, September 9.—The river is falling, with three feet in the canal.

Memphis.

MEMPHIS, September 9.—The river is falling, with eight feet scant to Cairo. Cotton is coming in very slowly.

RIVER NEWS.

THE RIVER AND MATTERS ALONG THE WHARF.—Business along the landing was pretty much suspended, the river being too low for navigable purposes. Below the Monogahela bridge nothing was done; above, the little Uncle Sam had the landing to herself. She left during the afternoon for Lock No. 3 with all the freight she wanted. The principal topic of conversation was the champion contest at Newburg between Hamill and Brown. Our "Jemmy" came out ahead. The news was received at the COMMERCIAL office before 7 A. M., and was at once placed upon the Bulletin Board. Of course Brown's friends did not believe the dispatches because it did not suit them; before evening, however, the scales fell from their eyes; they were forced to sell out. The Hamillites were jubilant, "and came up smiling."

THE steamer Argosy is still running in the Cincinnati and Big Sandy trade.

THE steamer Spray, Captain Smith, is running between Cincinnati and Marietta.

JAMES W. JOHNSON, an Ohio river steamboat clerk, died a few days since in New Orleans of yellow fever.

THE Grey Eagle took the first bale of new cotton to New Orleans this season. The Arthur brought the first one to Cairo.

A DISPATCH dated Omaha, September 4, says: The steamer Richmond passed down last night, with 300 passengers and much treasure aboard.

BIG RECEIPTS.—The St. Louis *Democrat* says the Guidon's passenger receipts to Benton and return, exceeded the sum of thirty thousand dollars.

STEAMBOAT SUNK ON THE UPPER MISSISSIPPI. —St. Paul, Minn., September 7, 1867.—The steamer Burlington was snagged and sunk near Wabash. She will prove a total loss. No lives lost.

LOUISVILLE MAY BE HAPPY YET.—Captain Saroni, the inventor of the petroleum burners, taught music in this city a few years ago. Louisville is coming out. Saroni and McCoole are Louisvillians.

The Vicksburg *Herald* says: We learn that Messrs. B. N. Cook and Strong, of this city, have purchased from Chaptain Wiley the steamer Cairo Belle for $2,000. She i soon to be placed in the Vicksburg and and Tallahatchie river trade.

LOUISVILLE—BOATS IN PORT—City Wharf—Havana, Tempest, Bermuda and Gov. Allen. Portland—Lewellyn, Cora S. Argonaut, Morning Star and Tarascon. Shippingport—Richmond, St. Charles, Indiana, B. L. Hodge and Liberty.

THE Helena *Herald* says: The steamer Miner was heard from at Cow Island, above Muscle Shoals, getting along slowly. It is feared several steamers above Fort Union will not be able to get up to Benton. The Deer Lodge passed down this morning with 200 or 300 passengers. There is a rise in the Yellowstone.

THE Evansville *Journal* says there is not the slightest possibility, and the practicability of opening the Big Bayou above and opposite to the mouth of Green river, in order to wash away the bar in front of the city, which is not generally deemed feasible. A mud dam above the wreck of the Missouri and a little dredging will do the work.

A DISPATCH from St. Joseph, Mo., of the 3d, says: The Glasgow came up this afternoon. She was compelled to double-trip it at Weston, in order to cross the bar. The Lexington and Columbian were at that point this morning; the latter hard aground. The channel opposite the city is best on the Kansas side. The large boats pass that way.

THE Cincinnati *Gazette* says the Fire King arrived from Louisville, after an absence of two weeks. We find long accounts of her performances in the Louisville papers, all of which go to show that the interested people of Louisville are ready to pronounce her a success. Mr. Saxon will return to Louisville shortly, for the purpose of putting petroleum furnaces on the steamers Morning Star and Tarascon.

IN the Circuit Court of Ohio county, Indiana, a jury under the ruling of the judge, in a case to recover wharfage, decided that where the public have used property bordering upon a navigable stream, such as the Ohio river, for twenty years or more, with the consent of the owners, for any purpose, the use constitutes a dedication to the public for that use, and the award was given to the defendants.

CAPT. HENRY W. SMITH, Superintendent of the Memphis and St. Louis Packet Company, and Captain Ben. Johnson, both distinguished river men of St. Louis, are at present in the city, endeavoring to make arrangements with the Nashville and Northwestern Railroad, and to perfect reliable connections at the other end of the road. We wish them success.

THE St. Louis *Republican* gives the following dates of departure of mountain boats: Gallatin left St. Louis April 21st; Richmond, May 8th; Tom Stevens, May 11th; Imperial, May 13th; Zephyr, May 23d; Centralia, June 12th; Last Chance, June 18th; Miner, June 29th; Mountaineer, July 3d; Only Chance, July 4th; Huntsville, July 7th; Deer Lodge, July 29th; St. Johns, August 9th, and Mary McDonald, August 10th.

THE Louisville *Democrat* pays the following compliment to one of our citizens: Captain Crawford, United States special agent for the Treasury Department, has been in the city for several days. His head is about "level" on the locked-safety valve question. No boat is compelled to use more than one valve, and any valve may be chosen by the captain or engineer. Captain Crawford is enjoying good health.

A DISPATCH from Omaha says: The river is very low and navigation extremely difficult. The Colorado and J. C. Lacy, Omaha and St. Joseph line packets, have been aground on sandbars for the last two days. The Colorado arrived Sunday night, but the Lacy is still aground opposite Brownsville, sixty miles below here. The Ben. Johnson arrived at noon, and returns to St. Louis to-morrow morning. The officers of the boat state the back of the H. S. Turner is not broken, and that she might be raised.

A MEMPHIS paper says the low-pressure steamer Richmond, Captain Sam Neal, will enter the Memphis and New Orleans trade, leaving that place every alternate Wednesday. She will start on her first trip on the 9th of October, and will continue regular in the trade. The Indiana, Captain Rube Neal, will ply in the Memphis and New Orleans trade, leaving every alternate Saturday. The railroads are cutting off the trade of the Ohio river, and before long there will be little doing in the Ohio above Evansville, except in heavy freights. The Memphis and Louisville railroad will carry the people and light freights.

A SHARP TRICK.—The Cairo correspondent of the Cincinnati *Commercial* tells the following:

A sharp trick was played, yesterday, on a well-known pilot, Sam. A—, by which he was victimized for $10. Another steamboatman, but little known, named Fleury or Flora, came to Sam., and told him that the Hero, a towboat owned here, had been chartered by Flora to bring out a tow of coal from certain mines, and asked Sam. what he would pilot her up and back for. The sum named was deemed satisfactory. Sam. was engaged and told to be on board early this morning. As Flora started to go away he suddenly turned again as if he had just remembered something, and said, "By the way, Sam., I promised to hand — ten dollars for getting the tow ready, and I have forgotten to bring it with me. Let me have that amount and I will give it to you when you come to the boat." Sam. handed him the money, but in about an hour afterward discovered that the whole story was a hoax. He, however, caught the fellow soon afterward as he was going on a boat to leave the city, and recovered two dollars, the balance having been expended in liquidating a board bill. Sam. did not have the fellow arrested, as it was too good a joke on a man who had been "around" so much. M.

The St. Paul *Press* gives a description of "Col. Long's Scrapers," which, under the orders of Gen. Warren, are to be used in removing sand-bars where they obstruct the navigation of the Mississippi. Three of the scrapers are being built in St. Paul, two of which are to be used between St. Paul and Le Claire, and on the Wisconsin river.

The following is a description of the scrapers, and the manner in which they work:

The scrapers which are in progress of construction consist of a very heavy oak frame, in the shape of an isosceles triangle securely braced with iron bolts and rods.

To the base of this triangle are fastened a number of semi-circular scoops or scrapers of boiler iron, about three feet in diameter, and not unlike sections of stove pipe, being open at both ends.

These frames are about seventeen feet in height and have a base of sixteen feet. They can be attached to the bow of any steamer, and can be raised or lowered at pleasure to suit the circumstances, it being impossible to use them in water from four to six feet in depth, and to cut channels from four to six feet deep.

The method of operating the scraper is as follows: It is attached to the bow of a steamer, the base at right angles to the keel, and is raised above the water. The steamer then runs up the stream to the point where it is desired to cut the channel, and the scraper is then lowered to the bottom, and the steamer backed down the stream. The scoops do not dredge the sand but, but scrape it loose from the bottom so that the current carries it off into deeper water. The operation is repeated until the water in the channel has attained a sufficient depth.

The three scrapers which are being built are to cost about $800,000 each, and are being constructed under the personal supervision of Major Long, a son of the inventor.

PROPOSALS.

OHIO RIVER IMPROVEMENT.

SEALED PROPOSALS will be received at the office of the Superintending Engineer, Pittsburgh, southwest corner of Third and Market streets, until SATURDAY NOON, September 21st, 1867,

For Removing Obstructions

From the Ohio River, consisting of Snags, Trees, Sunken Logs, Boats, Barges and Wrecks, &c.

Bidders will specify the price per day for each day's work, for which they will agree to furnish everything necessary and do the work, under the superintendence of a person to be appointed by the said Engineer. Said price to cover the furnishing of a light draught steamer, two strongly decked flats, one crane and crane boat and the necessary screws, chains, ropes, levers, saws, axes, fixtures, etc., suitable for such work, and including the pay and expenses of Captain, Pilot, Engineer and Crew and six men for working the steamer and doing the work. All expenses to be paid and all risks borne by the party proposing, it being understood that the Government will be responsible for the payment of nothing more than the sum per day that may be agreed upon.

Proposals will be received for two steamers, &c.

The right is reserved to reject any or all bids if it may be deemed to the interest of the Government so to do.

The work is of the same character as that now carried on with the steamer "Greenback."

Blank forms of proposals will be furnished on application to the office; the proposals to be accompanied with the guaranty of two responsible sureties.

For further information apply at the office in Pittsburgh, by letter or otherwise.

By order of the Chief of Engineers of the Army of the United States.

SEALED PROPOSALS are invited and will be received at this office until MONDAY, 12 o'clock M., September 23, 1867, for the delivery, in the city of Baltimore, of FORTY (40) CAVALRY HORSES (Bay).

The Horses will be subjected to careful inspection before being accepted. They must be sound in all respects, well broken, in full flesh and good condition, from fifteen to sixteen hands high, from five to nine years old, well adapted in every way for cavalry purposes.

The ability of the bidder to fulfill his agreement must be guaranteed by two responsible persons, which guaranty must accompany the proposal.

The Horses must be delivered within fifteen (15) days from the date of acceptance of any proposal.

The Government reserves the right to reject any or all bids.

Payment to be made on completion of contract.

Bids will be indorsed "Proposals for Cavalry Horses," and addressed to the undersigned, Baltimore, Md.
